From Rev. Levi G. Beck, Pastor of the Baptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia, at present Pastor of the Baptist Church, Chester, Penn.:

* * * * * * * * *

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects, that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully, as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."
Yours, truly, LEVI G. BECK.

From Rev. W. D. Seigfried, Pastor of Twelfth Baptist Church, Philadelphia.

GENTLEMEN: I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of these bitters induced me to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "bitters," whose only aim seems to be to palm off sweetened and drugged liquor upon the community in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it, with happy effect. Its action, not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles. Very respectfully yours,
W. D. SEIGFRIED, No. 254 Shackamaxon-st.

From A. M. Spangler, Editor of the Culturist, No. 25 North 6th-st.:

PHILADELPHIA, July 15, 1865.

Some eighteen months since I was a severe sufferer from dyspepsia. I was not only unable to take plain food without suffering great distress, but had become so debilitated as to be almost unfitted for active business of any kind.

After trying a variety of so-called remedies, all of which proved worthless, I was induced, at the suggestion of a medical friend, to give Hoofland's German Bitters a trial. I accordingly purchased six bottles, which were taken in accordance with your directions.

The result was complete removal of all distressing symptoms, after eating or drinking, and a full restoration of strength, so that I now eat all ordinary kinds of food with impunity, and am able to attend to all the active duties of a large and arduous business as well as at any period of my life. The good effects of the bitters were manifested before I had taken the first bottle.

I have also used it in my family with the happiest results, and take great pleasure in adding my testimony to that of the many others who have been benefited by them. I find great benefit from the use of a bottle in the Spring and Fall. They not only create a vigorous appetite, but give a healthy tone to the stomach, by strengthening its digestive powers.

If the above testimony will be the means of inducing any who suffer from dyspepsia to give your bitters a trial, (when it, I feel confident, will give them relief,) it is at your service. Yours truly,
A. M. SPANGLER.

From Rev. E. D. Fendall, Assistant Editor of the Christian Chronicle, Philadelphia.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.
Yours truly, E. D. FENDALL.

From Rev. D. Merrige, Pastor of the Passyunk Baptist Church, Philadelphia.

From the many respectable recommendations given to Dr. Hoofland's German Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach. D. MERRIGE.

From Rev. Wm. Smith, formerly Pastor of the Vincentown and Millville (N. J.) Baptist Churches, Philadelphia.

Having used in my family a number of bottles of your Hoofland's German Bitters, I have to say that I regard them as an excellent medicine, specially adapted to remove the diseases they are recommended for. They strengthen and invigorate the system when debilitated, and are useful in disorders of the liver, loss of appetite, &c. I have also recommended them to several of my friends, who have tried them and found them greatly beneficial in the restoration of health.
Yours, truly, WILLIAM SMITH,
No. 966 Hutchinson-st.

From Rev. Thos. Winter, D. D., Pastor of Roxborough Baptist Church:

DEAR SIR: I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced great and unexpected relief; my health has been very materially benefited. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.
Respectfully yours,
T. WINTER, Roxborough, Penn.

From Rev. J. S. Herman, of the German Reformed Church, Kutztown, Berks County, Penn.

RESPECTED SIR: I have been troubled with dyspepsia nearly twenty years, and have never used any medicine that did me as much good as Hoofland's Bitters. I am very much improved in health after having taken five bottles. Yours with respect, J. S. HERMAN.

LATER NEWS FROM MEXICO.

Capture of Monterey by the Liberals.

A Large French Force Landing at Bagdad.

Reinforcements for the Liberals Before Matamoras.

Capture of an Imperial Transport on the Rio Grande by an Ex-Rebel Lieutenant.

The Transport Handed Over to the Federal Authorities.

NEW-ORLEANS, Thursday, Nov. 16.

We have the following highly interesting news from Mexico:

The Brownsville *Mexican Republican*, of the 7th inst., announces the capture of Monterey by the Liberal forces under Gen. PORRO.

The *Republican* also says that no Liberal reinforcements have arrived from Brownsville.

A merchant who had arrived at Brownsville says that a large French force was landing at Bagdad.

An extra of the *Republican* says that Gens. PENDRO and MENDOT had arrived and joined Gen. CORDO before Matamoras, with eighteen hundred Liberals, and that previously they had surprised and utterly destroyed an Imperial garrison of one hundred men, including a number of French troops.

The Liberals claim that Matamoras is completely at their mercy, and that they can take it whenever they please.

The Matamoras *Ranchero* says that the Liberals have offered to give four hours, in which to plunder Matamoras, to all United States troops at Brownsville who will join them in taking the city.

The *Ranchero* warns the Federal commander at Brownsville to keep a sufficient force there to prevent his troops joining the Liberals for this purpose.

The Galveston *Bulletin* of the 12th inst. says that Col. JONES and Gen. ESCOBEDO and staff had arrived there from Brownsville.

CAPT. SINCLAIR, of the Liberal forces, formerly a Lieutenant on board of the Confederate privateer *Alabama*, had captured an Imperial transport on the North Rio Grande, taken her into Brownsville and turned her over to the Federal authorities, who placed a guard on board of her.

Gen. CANALES, at the head of a Liberal force, was marching towards Bagdad and would try and capture it.

An Imperial gunboat had passed up from Bagdad to Matamoras.

Later Intelligence.

Late Mexican papers received by the *Manhattan* contain the following items of news:

It was rumored in Vera Cruz that JUAREZ was in Texas, on his way to Piedras Negras. It was also rumored that the United States troops in Texas were more and more approaching the river, as if contemplating some hostile movement.

Dates from Morena to the 27th state that the Imperialist Col. MENDES had ordered the Liberal Gens. ARTEAGA and SALAZARK and three Colonels to be shot.

A Republican camp had been attacked by the Imperialists, near Matamoras, and among the prisoners taken were three soldiers in United States uniforms. They were handed over for trial to a court-martial, which would, no doubt, order them to be shot.

The Mexican *Times*, of the 14th ult., publishes two imperial decrees appointing Señor M. F. MAURY Chief of Colonization, and the other Señor J. B. MAGRUDER as Chief of the Land Office of Colonization.

The *Times* says:

"We congratulate the Imperial Government in securing the valuable services of these gentlemen, while the numerous friends of Señors MAURY and MAGRUDER in the United States will be much pleased to learn that they have received such marks of confidence and respect. The public lands will be surveyed, sectionized, and offered for sale according to the plan of the United States Land Office."

The inauguration of the Chalco Railway, extending from the City of Mexico to the village of Chalco, a distance of 36 miles, was celebrated on the 13th ult. The Emperor and Empress were present. Bishop CARPENA bestowed his blessing on the engine, and the Imperial Austrian band discoursed the music.

FROM WASHINGTON.

Special Dispatches to the New-York Times.

WASHINGTON, Friday, Nov. 17.

THE NAVY REPORT.

The annual report of the Secretary of the Navy is nearly all printed. It is always the first given to the Public Printer. Some of the reports of bureaus connected with the Treasury, Post-office and Interior Departments are also in print. The manuscript of the other reports are not yet completed.

GRANT'S OPINIONS ON THE EUROPEAN STOCK MARKETS.

Consul-General MURPHY, at Frankfort-on-the-Main, writes to Secretary MCCULLOCH that when the reported conversation between Gen. GRANT and Judge CATON, of Illinois, on the Mexican question, was published in Germany, it produced a marked decline in American Securities, from which they recovered, however, on the contradiction of the report.

A CORRECTION.

The Washington correspondent of the New-York *World* wrongfully attributes the statement of the fitting out of the iron-clads at Portsmouth to the TIMES. The TIMES made no such statement, and the Secretary of the Navy therefore could not and did not authorize the correction of the TIMES.

GOLD CERTIFICATES.

The Treasury Department has just printed gold certificates to the amount of $37,000,000, which are to be sent to the proper offices as occasion may demand.

TREASURY NOTES.

The five per cent. one and two years' Treasury notes falling due on and after the 1st proximo, will be paid at the Treasury Department at their maturity.

EXTENSION OF FRANCHISE—ADDRESS BY SENATOR HAHN.

Senator HAHN, of Louisiana, in his address to-night before the Equal Suffrage Association of this city, took strong grounds in favor of the extension of the elective franchise to colored soldiers. He said, during the course of his remarks, that slavery, though not existing in name, still exists in fact, and in a more odious form than ever throughout the entire South. The address was listened to attentively by a large audience, and at the conclusion of the meeting a vote of thanks was tendered the distinguished speaker.

REPENTANT REBELS.

GEO. A. MAGRUDER, of Virginia, who was Chief of the Bureau of Ordnance in the Navy Department at the breaking out of the rebellion, and who was dismissed because of his active coöperation with leading rebels, is now seeking to have his dismissal revoked, that he may be permitted to resign his office and change his status on the official records. Hon. R. M. JOHNSON, formerly a United States Senator from Arkansas, is here seeking the restoration of his valuable plantations in the South, most of which are now in the possession of the Freedmen's Bureau. It is understood that the property will be restored to Mr. JOHNSON.

CHEATING CONTRACTORS.

Two years ago a court-martial at Cincinnati tried and convicted E. A. SMITH and C. W. HALL, for gross frauds in the supply of horses and mules to our Western armies. It was estimated that a loss had been inflicted on the government, by these and other contractors, of more than a million dollars in Cincinnati alone. President LINCOLN yielded to the importunities and representations of friends of these two men, and ordered a stay in the execution of the sentences until he could examine the record. HALL was subsequently pardoned. SMITH's case having been recently brought to President JOHNSON's notice, he rescinded the order of his predecessor, and the culprit contractor has been rearrested and lodged in prison to serve out his term of sentence. The policy of the government to try no more civilians by court-martial, will let many precious scoundrels go unwhipped of justice. In two cases alone that were about being tried by order of the Secretary of War, but which under the new ruling were abandoned, there were more than $2,300,000 involved. Congress having made contractors for army and navy supplies amenable only to military tribunals, the delinquents cannot even be brought before the civil courts, and will go scot free.

OUR MINISTER TO CHINA.

Hon. ANSON BURLINGAME, Minister to China, was to-day presented to the President by the Secretary of State.

CANDIDATES FOR SERGEANT-AT-ARMS.

Among the candidates for Sergeant-at-Arms of the House of Representatives is Col. INGRAHAM, of New-Bedford, Mass., and late Provost-Marshal of this department. Mr. ORDWAY, the late popular and efficient incumbent of the office is a candidate for reëlection.

MORE INDICTMENTS AGAINST BAKER.

The Grand Jury of this district to-day reported two more bills of indictment against L. C. BAKER, Government Detective, for false imprisonment of LUCY L. COBB, and for extortion.

RETURN OF MR. CORCORAN.

Mr. CORCORAN, the Washington banker, who voluntarily expatriated himself and resided in Europe during the rebellion, has returned to this city. During his absence his residence was occupied by the French Legation.

SMALL CHANGE.

The Printing Bureau of the Treasury Department is busily engaged in printing the new five-cent fractional currency for circulation in the South.

CONDEMNED GUNS.

The Navy Department has in the yards at Washington, Boston, Portsmouth, New-York and Philadelphia, over one thousand condemned cannon, which the Ordnance Bureau will soon offer for sale as old iron.

THE MARINE CORPS.

The following changes have been made in the Marine Corps: Capt. WM. DULANY is removed from command of the Marine Barracks at Norfolk, Va., to be succeeded by Major JOHN L. BROOME, who has been detached from the Western Naval Station at Mound City, Ill. First Lieut. THOS. MCELRATH is detached from the Marine Barracks at Brooklyn, and ordered to command the marine guard of the steam sloop *Monongahela*, at New-York. The guard of this vessel started from Washington, this morning, in charge of First Lieut. COCHRANE. Capt. J. F. BAKER and Lieut. F. T. PEET, of the Marine Corps, late of the steamer *Niagara*, have been summoned as witnesses in the case of Commodore CRAVEN, and when dismissed will report for duty at the Marine Barracks, in Philadelphia.

OFFICE-SEEKERS.

There are more than 5,000 applications on file for situations in the Treasury Department, and this number increases from day to day. Many of them are from discharged soldiers. The list for the past week contains thirteen applications from colored men lately in the military service. The number of women seeking employment in that department is very large. Recommendations seem to be easily procured. The other departments are similarly besieged.

REVENUE DECISION.

The Commissioner of Internal Revenue, to-day, decided that a deed or conveyance from a State Bank Association to a National Bank, is subject to a stamp duty, as in cases of conveyance of real estate from one owner to another. Heretofore this stamp has not been deemed necessary, the parties being of the opinion that the transfer of property from a State Bank to a National Bank, into which the former had been merged, was not an absolute change of ownership. The Commissioner decides that such a transfer is a change of ownership.

NAVAL PRIZES.

The Fourth Auditor of the Treasury publishes a long list of additional naval prizes which are now payable.

THE FENIAN EXCITEMENT.

TORONTO, C. W., Friday, Nov. 17.

The Fenian excitement of the last two days has apparently disappeared.

A general feeling of confidence now prevails that all necessary precautions have been taken to prevent lawless depredations by members of the Brotherhood.

A Speech by D'Arcy McGee.

A public dinner was given in Montreal, on the 15th inst., to Hon. T. D'ARCY MCGEE, who represents the Anti-Fenian portion of the Irish population in Canada. Mr. MCGEE has a reputation as an orator, and is a member of the Cabinet as Minister of Agriculture and Emigration. The demonstration was, as the *Gazette* says, a "splendid success," and deemed important in the present state of the colony. Mr. MCGEE, in his able speech at the dinner, thus speaks of the Fenian movement in the States:

It is not a pleasant report for me to make, or for a mother country to hear, that for so many of her emigrants, democracy and degeneracy have proved identical terms. It is not a pleasant subject to sketch those seaport demagogues, native and Irish, who have made themselves the masters of the passions of so many of the Irish in the United States, who are at this moment coining their prejudices if not into gold, certainly into greenbacks, to the astonishment and derision of all sensible men. But I am careful not to permit the impression that this degenerate class, though unfortunately too numerous, included all my countrymen in the United States; I was careful to do justice both to the domestic and public virtues of a very different class, (cheers,) against whom the worst reproach we can make is, that they fail in a robust resistance to the demagogues and their dupes; that they allow the lowest and least worthy among them to speak for all; that content with avoiding the contamination themselves, they make no concerted effort to keep their less intelligent compatriots out of the jaws of those who daily devour them as their prey. If any justification were needed by any one of the severity with which I spoke of the Yankee-Irish demagogues, they may find it in the shameful farce now played before our eyes under the title of the "Irish Republic." [Laughter.] We have had on the boards before "the Irish Ambassador," and "King O'Neil;" but these performances are all eclipsed by "the Irish Republic" and President O'MAHONY. [Laughter.] An Irish Republic on Manhattan Island, with Senators from Tennessee and Senators from Massachusetts, with a President taken from the Lunatic Asylum, and, in "a concatenation accordingly," Mr. TRAIN—if there really be such a person as Mr. TRAIN—as its orator. I say if there really be such person, for I always suspected that TRAIN was a work of fiction, like Orpheus C. Kerr or Bird-o'-Freedom Sawin. [Great laughter.] As an extravaganza on American oratory the character is not badly sustained; a little too improbable, perhaps; but if there be really such a person, and if he really made the mad speech he is reported to have made, "in lavender-colored gloves," to the Fenian Congress at Philadelphia, only fancy what a Congress it must have been. [Laughter.] Only fancy the Congress that sat nearly a century ago at Philadelphia—grave men conscious of their work—invited to listen to some earlier Train—in the midst of their deliberations. What would have been their disgust! and what must be the disgust of every sensible man, who has heard or read of these saviours of their country, showing their capacity for their work, by shouting themselves hoarse at the crazy periods of poor Mr. TRAIN. Mr. Chairman, as I have introduced this subject, which not indirectly concerns ourselves, perhaps your will further bear with me if I say something additional in relation to the attitude of the Irish at home and abroad to the empire under which much the larger half of them still live, including, in that empire, these provinces, of course. This late exhibition of mingled knavery and folly at Philadelphia, I admit, is chiefly calculated to inspire disgust; but it also excites commiseration for the dupes, and indignation against the demagogues concerned in it. When we see how delusion at this side the Atlantic begets delusion at the other—how the astute "organizers" profit by the plunder of the confiding ignorant—when we see how the dupes who really run risks are egged on in Ireland to their ruin by knaves who lie up in clover on Manhattan Island—when we see Irish patriotism paying for a palace in Union-square—when we see the treachery that betrays the sworn brother to the outraged law—what else can we feel but indignation against the author of such madness, and misery, and infamy? [Cheers.] They the authors of a liberation of Ireland! Why don't they liberate the Ireland at their own doors, from the poisonous and murderous surroundings of the tenement houses of New-York and Boston? [Cheers.] Why don't they liberate their own young Ireland from sanitary destruction—that Ireland in America, which, according to the NEW-YORK TIMES, contributes 88 per cent. of the deaths of children, on the whole number of deaths in that great city? They liberate Ireland! Why don't they liberate those children of a larger growth, worse than fatherless, who are swept daily from among them to the far West, there to undergo the fate of changelings and apostates, among an alien people? [Cheers.] The New-York Protectory, established by sane and good men, to diminish the swollen volume of Irish vagrancy and juvenile crime, has asked the other day for $28,000 to carry on their work—there is a chance to liberate a part of Ireland at all events. [Cheers.] Why don't these insatiate patriots lend a hand there, where they can be of use? Why don't they try to liberate the Irish laborers in New-England, where they rank in the social scale below the negro, and hardly above the beasts they drive for their Yankee bosses? There is a work for them to do if they were only honest, and if they only tried; but I admit there is one objection to it, insuperable to the Fenian mind; it is practicable, it is possible; there it is avoided and despised. [Loud cheers.] These liberators, Mr. Chairman, are held out by a portion of the American press as a menace to us here, in Canada; and it is alleged, moreover, that they have many sympathizers, if not actual associates, among the Irish population settled on this side of the line. I think they set down their force in British America at the exact figure of 45,000 men. Well, Sir, all I can say is, that if the rest of their figures are as near the mark as these, they are a very formidable body of enemies—to the truth. The Fenians in the United States, feeling in their hearts for all their fustian about the glorious republic, that they are not really at home there; feeling that they have not conquered for themselves a new country in the New World, may try to solace themselves with a conspiracy in lieu of a country; but the Irish in Canada, who (looking back to their small beginnings a few years ago) have already made such headway—who have already acquired so much property—who already exercise by common consent so large a share of legitimate influence—they have a position to guard, and guard it they will, with national ardor and resolution. [Loud cheers.] Mr. Chairman, in holding this language, I am morally certain I speak for 999 out of 1,000 of all my countrymen in Canada; for all the old and known residents; for all but a handful of those who are known as skedaddlers—[laughter]—runaways from the first and second American draft, who would not fight for the United States when they were in it, and who would be satisfied nowhere, under any form of government, that required duties to be discharged in return for rights conceded. If there are any Fenian sympathizers among us they are altogether of that class, and the Americans ought to know by this time what reliance to place upon them and their reports. [Hear, Hear.] But with all due respect for our American neighbors, I think it must be admitted that the levity with which so many of their leading men have spoken of letting loose this lawless element upon these provinces is little to their honor. [Hear, hear.] No doubt something is allowable to the exuberance of spirits consequent on escape from civil war; something, too, for the feeling that English neutrality was not fairly or fully observed on the high seas. Putting aside, but not for a moment admitting that allegation—[Hear, hear]—what possible complaint can they have against Canada? Has not their government officially acknowledged the bona fide efforts of our government to enforce the laws of good neighborhood, and to prevent raids across the frontier? We know that, and they know it, and the truth is that although so many of their leading men and organs hold the language to which we object, if the Fenians were to violate the Neutrality Act to-morrow by any public move, the United States authorities would, for their own sakes, pounce upon them at once. [Hear, hear.] It is unfair, then, I say, to us, it is unworthy of themselves, and it is cruel to those foolish Fenians as well, to hold a language they would be obliged to abandon, to coquette with questions of peace and war, which they will find time enough to take up seriously, when they have reconstructed their Union and readjusted their finances. [Cheers.]

THE BOARD OF SUPERVISORS.

The Census Question Again—Report of the Minority of the Volunteer Committee on the Subject.

This board met at 2 P. M. yesterday, Mr. TWEED in the chair.

The following report on the census question was presented:

To the Honorable the Board of Supervisors:

The Special Committee on Volunteering, to whom were referred the bills of the State Census Enumerators, as per resolution adopted by your Honorable Body, Sept. 20, in words following:

Resolved, That the bills of the Census Enumerators heretofore presented, or which may hereafter be presented, be referred to the Special Committee on Volunteering, with instructions to examine the work of such enumerators, and ascertain, as near as may be, which of such enumerators have properly discharged their duties, and to report the results of such examination to this board; and that, for the purpose of facilitating such inquiry, the County Clerk be requested to deliver to said committee the copy of the census returns in his possession, to be returned to him when such inquiry shall have been completed—would respectfully

REPORT:

That they have given the matter referred to them careful consideration, and find that there is but one method of examining the work of the State Enumerators, and ascertaining with certainty which of them have properly discharged their duties, such method being to go over some portion of the work returned and verifying its correctness.

The complaints against the census of this county, as returned by the State Enumerators, have been numerous, and many vague charges of non-performance of duty on the part of these officials have been made. These complaints and charges seem to have been confined almost entirely to the question of population, and therefore to this point, as the most disputed, and really the most important, your committee determined to confine their investigations.

The First Ward being first in numerical order, it was thought proper to take up that ward for examination. Having ascertained, after some trouble, the boundaries of the districts of that ward by which the State Enumerators were governed, your committee appointed a suitable person to reënumerate the population.

Your committee have now in their possession sworn returns of such reënumeration of three districts, and propose in this report to lay the results of their inquiries, as thus far concluded, before your Honorable Body. These three districts were bounded as follows:

First District—West, Morris and Greenwich streets and Battery-place.
Second District—West, Morris, Greenwich, Carlisle, Washington and Rector streets.
Third District—West and Liberty streets, Trinity-place, Thames, Greenwich, Carlisle, Washington and Rector streets.

The following are the names of the State Enumerators for these three districts:

First District—THOMAS DINAN.
Second District—MICHAEL J. CULLEN.
Third District—EDWARD GARDNER.

JOHN R. WILDS was employed by your committee in the work of reënumerating these districts.

THE FIRST DISTRICT.

In the First District the number of inhabitants returned by the State Enumerator was two thousand one hundred and ten.....2,110
The whole number returned by the County Enumerator was two thousand seven hundred and sixty-four.....2,764
Making an increased number in the County returns of six hundred and fifty-four.....654

There were returned by the State Enumerators in this District, of males, one thousand and fourteen.....1,014
The County enumeration of males was one thousand three hundred and sixty-nine.....1,369
Increase of males on county returns three hundred and fifty-five.....355
The State enumeration of females was one thousand and ninety-five.....1,095
County enumeration of females one thousand three hundred and ninety-five.....1,395
Increase of females on county returns two hundred and ninety-nine.....299
Total increase on county returns six hundred and fifty-four.....654

Recapitulation of First District.

	Males.	Females.	Totals.
State enumeration	1,014	1,096	2,110
County enumeration	1,369	1,395	2,764
Increase on county returns	355	299	654

THE SECOND DISTRICT.

In the Second District the total population was returned by the State Enumerator as one thousand four hundred and ninety-eight.....1,498
The County Enumerator returns two thousand six hundred and nine.....2,609
Increase in the county returns, one thousand one hundred and eleven.....1,111

No comparison of sex has been made in this district.

THE THIRD DISTRICT.

In the Third District the State Enumerator returns a total population of two thousand and forty-three.....2,043
The County Enumerator returns two thousand seven hundred and eighty-three.....2,783
Increase in the county returns, seven hundred and forty.....740

No comparison of sex has been made in this district.

	State enumeration.	County enumeration.	Inc. in county enumer'n.
First District	2,110	2,764	654
Second District	1,498	2,609	1,111
Third District	2,043	2,783	740
Totals	5,651	8,156	2,505

By the State census the whole population of this county is given at about seven hundred and twenty-two thousand (722,000.) Should the State census be as defective throughout the county as it proves to be in the districts embraced in this report, the real population of the county will be found to be considerably over one million (1,000,000.)

To fully exhibit the plan which your committee have pursued for the purpose of this inquiry, the population, as originally enumerated by the State, and as reënumerated by the county, in the First District of the First Ward, is appended to this report. A summary statement shows the population returned to each house in the First District, by the State and County enumerators, classified by sex. A detailed statement shows the names of all the persons returned to each house in this district by each enumerator.

It will be noticed by these statements that there are several instances where it is evident that houses were not visited by the State Enumerator at all. Of No. 12 and 12½ Washington-street, rear, where forty-six (46) persons are reported to have resided on the 1st of June by the County Enumerator, the State Enumerator makes no returns. In No. 12 Washington-street, front, where sixty-five (65) persons are reported to have resided on the 1st of June by the County Enumerator, but seven (7) persons are reported by the State Enumerator.

It will also be perceived by the detailed schedule of the First District that many names appear upon the county returns which do not appear upon the State returns, and *vice versa*. This discrepancy is readily accounted for. The State Enumerator was supposed to embrace in his returns the name of every person whose usual place of abode was in the family on the first day of June, 1865. In taking the county enumeration, strict instructions were given to make the returns conform to this regulation. It is evident, however, from the discrepancy in the names, that the State Enumerator paid no particular attention to this rule. As the population embraced in this district is of a migratory character, the County Enumerator was, in many instances, compelled to travel out of the district to find the persons who had resided in it on the 1st of June, and in many cases, after diligent search, they could not be found, and were therefore lost for the purposes of the reënumeration.

It is not surprising that the State census should prove to be full of inaccuracies,

First—At the present prices of labor, the compensation of $3 per day is wholly insufficient to secure that degree of intelligence in the laborers which is absolutely necessary to the comprehension of the voluminous statistics required to be obtained for the purposes of the State census. In regard to population alone, twenty-eight (28) questions are necessary, by the blanks furnished, to be propounded to nearly every adult; if deaf, dumb, blind, insane or idiotic, the number of questions amount to forty-four (44); where the person is now in the military or naval service, the number of questions run up to fifty-eight, (58); and when the person has been in the same service, the number of questions amount to seventy-seven (77.) When it is understood that the districts throughout the city, according to the State returns, average little less than two thousand (2,000) to each, and the large number of questions required to be asked is considered, something of the labor required of the State Enumerators may readily be imagined, and the degree of intelligence necessary to present a correct return of each district may be appreciated. A clearer comprehension of this suggestion may be obtained from the schedule of the particulars required to be obtained by the State Enumerators in regard to population, which is annexed in the appendix to this report.

Second—The State districts are entirely too large to expect the work of enumeration to be accurately done, especially as the census of population was intended to be taken as it existed on the first day of June. Any one acquainted with the floating character of much of the population of this city will readily understand that it would be very difficult to ascertain it correctly on any certain day, if the inquiry were delayed beyond that day. We have already stated that the County Enumerators found much trouble from this source, and it is safe to say that if the State Enumerators had paid particular attention to the regulations requiring the census of population as it existed on the 1st of June, in at least one-half of the districts of this county, it would have required a much longer time to complete the census than was actually taken. And yet in many districts much more than the thirty (30) days allowed was employed, and in one or two the returns are not yet complete.

The plan pursued in taking the census of the State of New-York has not been such as to be likely to secure any great degree of accuracy in this county. The same form of blanks seems to have been used both in this county and in the State, and, while they may be very useful elsewhere, they are of little service here.

In fact there is but one true way to take an accurate census of a great city such as is embraced in the County of New-York, viz.: The whole census should be taken on one certain night, and every person who slept in the city on that night should be enumerated. Until some such plan is pursued, it is useless to expect that any correct return of our population will be obtained. This is the plan adopted in England, and by it no difficulty is found in accurately ascertaining the population of a city at least three times as large as the City of New-York.

Your committee submit these facts for the consideration of your honorable body, and request instructions as to whether they shall proceed in the examination of the work of the State census enumerators.

It should be observed that it is clearly impossible, after so long a lapse of time, to discover with certainty all the occupants of houses on the 1st of June last, and, therefore, should the examination which has been commenced be continued throughout the county, it cannot be expected even then to give with accuracy the whole population of the county, and the results of such examination would be valuable only as a test of the fidelity of the State census enumerators.

All of which is respectfully submitted.

ELIJAH F. PURDY,
WILLIAM M. TWEED,
Special Committee on Volunteering.

NEW-YORK, Nov. 4, 1865.

Mr. PURDY said that as agents of the public he supposed it was the duty of the board to let the public have all the information contained in both the minority and majority reports, and he would therefore move to have the reports printed side by side, in document form. He did not mean to charge the enumerators with dereliction of duty, but he thought they had had too much work to do.

Mr. SHOOK moved, as an amendment, that the majority report be adopted.

Mr. ELY moved to amend by substituting the word "minority" for "majority."

Mr. SHOOK thought the so-called minority report was not a report at all. The question was whether or not the bills of the enumerators should be paid, but the report said nothing about the bills.

Mr. DAVIS thought the report could be accepted, but not adopted, because the board knew nothing about the statements made in the report. The report itself recommended no action, and there was therefore no need for its adoption.

Mr. STEWART said the worst section of the city had been chosen by the committee for their investigations. The parties living there had refused the State enumerators the information sought. In the Fifteenth, Eighteenth, and other Wards, a different result would be shown.

Mr. FOX said he should vote for paying the enumerators, because the law was mandatory, though he did not think they had done their duty. The result of the committee's investigations proved that conclusively. They had found a difference of 2,600 in the enumeration of three districts, as their report showed.

Mr. ELY said it had been shown that a certain enumerator had neglected his duty. It was therefore the duty of the board, instead of paying that man's bills, to report him to the Secretary of State, and have another enumerator appointed in his place.

Mr. ELY's amendment to adopt the minority report, was then put and lost.

Mr. ELY then offered a resolution that the enumerator of the first three districts of the First Ward be reported to the Secretary of State for having neglected his duty, and that the Secretary be requested to appoint another enumerator in his place.

The resolution was lost.

Mr. PURDY moved that both reports be printed, and that the resolution appended to the majority report, in favor of paying the enumerator's bills, be adopted.

It was lost by a vote of 5 to 6.

Mr. SHOOK's resolution to adopt the majority report was then put and lost.

Mr. PURDY's original resolution to print both reports in document form, was also lost.

A resolution was adopted complimenting the Police Commissioners on the fine appearance made by the force at the late parade, and Mr. ELY was appointed a committee of one to express personally the sentiments of the board to the Commissioners.

The board then adjourned to 2 P. M. on Tuesday next.

Execution of a Murderer.

MONTREAL, Friday, Nov. 17.

The Laprarie murderer, STANISLAUS BARREAU, was executed this morning at 10 o'clock, in the presence of about 15,000 people. He slept soundly from 2 to 6 o'clock this morning, and seemed resigned to his fate.

INTERESTING FROM TEXAS.

Call for a State Convention to be Issued.

Orders Received Not to Muster Out Any More Troops.

No More Government Property to be Sold.

NEW-ORLEANS, Thursday, Nov. 16.

News from Texas states that the Indians are creating great alarm on the northern frontier of that State.

Advices from Austin say that Provisional Governor HAMILTON will soon issue an order for the election of delegates to a State Convention, the election to be held about the 15th of December, and the convention to assemble about a month after.

The Houston *Telegraph*, of the 10th inst., learns that orders have been received in the State from Washington not to muster out of the service any more troops, nor to sell any more government property until further orders.

The Germans in Texas are preparing to plant cotton extensively, and to raise it by their own labor. They also invite their countrymen to emigrate to the State.

No mails are yet running between New-Orleans and Galveston.

Arrived at Galveston steamer *Wellington* from New-York.

CONDITION OF EAST TENNESSEE.

A Graphic Picture of the State of the Country by Gov. Brownlow.

STATE OF TENNESSEE, EXECUTIVE DEPARTMENT,
NASHVILLE, Nov. 13.

EDITORS CINCINNATI GAZETTE: In your paper of Saturday I find this notice:

"Gov. BROWNLOW was robbed of $500 and his watch, by some highwaymen near Nashville, while he was riding out with Hon. HORACE MAYNARD, on Friday evening."

This is a mistake. It was my son, the Adjutant-General of the State, who was riding in a buggy with a son of HORACE MAYNARD. I am too prudent a man to ride out on any road leading from or coming into Nashville, other than a railroad. This whole country abounds in thieves and robbers, any of whom would murder a man for his watch or for a $5 bill. Despite of all the vigilance exercised by the civil and military authorities, murders and robberies are of daily occurrence—both in Nashville and the surrounding counties of Middle Tennessee. As loud and as numerous as are the complaints against East Tennessee, by the papers of Nashville, and a certain class of politicians, there are five of these outrages perpetrated in Middle Tennessee to every one that occurs in the Eastern division of the State. To be candid, there is almost as much disloyalty in Middle Tennessee now, as there was in 1861. And this is so of the whole South, minus the number of disloyal men who are under ground! Tennessee is in a much better condition than any one of the seceded States, and she has great room for improvement. Six or seven out of her eight representatives in Congress are true and loyal men, and for the good of the State and nation, I should like to see them admitted to seats in the approaching session. But this I cannot say of the other Southern States. They will not elect loyal men to Congress, nor can a loyal man be elected Governor of one of those States. Their conventions and Legislatures are overwhelmingly rebel, and will be for years to come. Their candidates for Governor, Congress and the Legislature, as well as for county offices, urge their claims for votes on the ground that they had done all in their power to aid the rebellion. They are for assuming the rebel war debt, and they are for legislating Northern men out of the South!

In a word, the rebels of the South have by no means abandoned this long cherished idea of separating the government. They are looking to this end; and more, they are organizing with a view to this result. They do not propose to dissolve the Union by the use of the sword and bayonet. They have tried this in a wicked war of four dreary years, and signally failed. Their purpose is to accomplish their infernal plans through the ballot-box in Congress, and they look to the Copperhead Democracy and other Northern traitors to aid them. Thank God, the recent elections at the North have blasted their hopes for the present, and taught them that the real people, the loyal masses of the great North, are all right.

My hopes for the future are in the goodness, the obstinate loyalty and determined purposes of the Republican majority in Congress. I pray God they will not admit rebels into Congress indiscriminately, because they have taken the amnesty oath, or obtained the Executive pardon. As President JOHNSON said, let them occupy the back seats for a few years.

I am one of those at the South who believe this war has closed out two years too soon! The rebels have been whipped, but not whipped enough.

For saying these things I expect to be abused by all rebels papers South, and by all traitorous sheets at the North. Let them say out; I am able to stand their abuse. I am for the American Union, regardless of the hate of sections, the war of parties, or the malice of individuals.

I have the honor to be, very truly and sincerely,
W. G. BROWNLOW.

Petroleum.

FRAUDS AGAINST THE INTERNAL REVENUE DEPARTMENT.

PIT HOLE, Penn., Friday, Nov. 17.

Within the past few days the government officials have brought to light facts which show the most extensive frauds against the Internal Revenue Department. Yesterday the officers seized Wells Nos. 47, 54 and 76, three of the largest on the Thomas Holmden farm. The government claims amount to $148,000, of which $88,000 is against the United States Petroleum Company and about $60,000 against a large operator here, who, it is alleged, last night made all his interests over to a second party. The government has notified the owners of the working interest in the wells not to deliver any more oil to the United States Company until the claims of the government are paid.

There is much excitement over the matter, and it is feared the bottom has not yet been reached.

The Citizen—A Card.

A statement loosely made by an officer of the Citizens' Association, and we trust incorrectly reported in the columns of the TIMES, renders it necessary that the position of this paper be distinctly and openly defined. The *Citizen* is the property of its editor and of him alone, absolute and uncontrolled. It has never received one dollar of subsidy from the Citizens' Association since passing into the proprietorship of its present owner, nor has that owner received one dollar of salary or reward from that Association. At the time of the transfer of the paper to its present editor and owner, an agreement was made by the Citizens' Association for the fulfillment of their unexpired contracts with subscribers and advertisers, at a sum certainly not greater than the mere cost of executing such work; and beyond that original agreement, which was made at the time of said transfer, the *Citizen* has not received, nor asked to receive, one dollar of help from any quarter. It is no more the "organ" of the Association, in the offensive sense of the quoted word, than the *Tribune* is or has been the "organ" of the Republican party; and there is not to-day, and never has been, since our assumption of the ownership, any power, save the will and judgment of the editor, in control of the columns or political course of this paper. If it were consistent to-day with our sense of right and self-respect to support FERNANDO WOOD for Mayor and JOHN E. DEVELIN for Corporation Counsel, that support might be as freely given as to the nominees of the Citizens' Association; and it is because we personally believe that JOHN HECKER and RICHARD O'GORMAN are candidates whose election is essential to the welfare of our city, and not because they are the nominees of any body of men in particular, that they receive our support. Such being the state of facts in the past, we anticipate from the Association in the future no dollar that will not be given for value received, just as the same shall be extended to other papers. As to the circulation of the *Citizen*, it can only be necessary to remark, without wishing to injure by invidious comparisons or figures any other journal, that it has to-day but two papers of its class in the city—the *Sunday Mercury* and *Dispatch*—with a greater sale of copies.

P. S.—Since the foregoing was in type, we have seen the gentleman whose words were misquoted, and find that his statement referred exclusively to what had been the condition of the *Citizen* previous to its purchase by its present owner. How and by whom the garbled report was carried to the press is not a matter of much moment; but the fact of its prompt appearance in the columns of one particular paper, and nowhere else, may be deemed not without significance by persons who understand present political combinations and are in the habit of tracing each effect to cause.

DENTISTRY.

IMPORTANT IMPROVEMENT.—DR. C. S. WEEKS, Dentist, No. 147 4th-av., extracts teeth without pain, by the use of nitrous-oxide gas, chemically pure; administered with an apparatus which prevents the patients from breathing over the poisonous exhalations of their own lungs as they are forced to do by the prevailing method of giving it.

DRS. GRIFFIN, NO. 258 GRAND-ST., opposite Lord & Taylor's, New-York, are inserting FULL or PARTIAL SETS of their IMPROVED ARTIFICIAL TEETH, with or without extracting the roots. Full sets on gold or platina, $25; silver or rubber, $10; partial sets gold per tooth, $2; silver or rubber, $1.

DR. HOYT, DENTIST—ORIGINATOR OF anesthetic nitrous oxide, has used it for years with perfect success, often extracting fourteen to sixteen teeth at a single operation without the knowledge of the patient. Office No. 878 Broadway, near 18th-st.

DR. VAN VLECK'S LATE IMPROVEMENTS, No. 175 6th-av. Fine sets of teeth in four hours, with plumpers, which restore youthful appearance. Gas daily administered and teeth extracted without pain. Charges below competition.

ANNULAR (diamond) DRILL.

The Annular Drill Company of New-York are now prepared to furnish their machines, built in the most thorough manner and unequaled for rapidity, economy and precision of work. DR. SCHENCK'S COLUMN.

DR. J. H. SCHENCK,

OF PHILADELPHIA.

SCHENCK'S

PULMONIC SYRUP.

A POSITIVE CURE FOR CONSUMPTION.

SCHENCK'S SEAWEED TONIC AND MANDRAKE PILLS.

THE AUXILIARY REMEDIES.

The proprietor of these medicines conscientiously offers them to the public as the only safe, reliable and certain remedies for Pulmonary Consumption. He recommends them with equal confidence as almost a specific for those morbid conditions of the body, which, if neglected, are apt to terminate in dangerous or fatal diseases of the lungs. Liver Complaint and Dyspepsia are generally regarded as forerunners of Consumption, and when these diseases manifest themselves, they require the most prompt attention.

The value of the Pulmonic Syrup has been tested in innumerable cases. My personal experience gives me the best assurance of the efficacy of this medicine. Many years ago I was given up by physicians as one who was in the last stage of consumption, and I was taken from my home in Philadelphia to my friends in Moorestown, N. J., to die. I was wasted away to a mere skeleton. I was confined to my bed, and my physician (who had attended my father's family before my time) declared that I could not live a week. Then, like a drowning man catching at straws, I heard of and obtained this preparation of roots and herbs, which, to the astonishment of every spectator, soon made a perfect cure. It seemed to me that I could feel it penetrating my whole system. It soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for more than a week. As soon as this expectoration began to subside, my cough, fever, pain and night-sweats all began to leave me, and my appetite became so great that it was with difficulty that I could refrain from eating too much. I soon recovered my strength, and have been increasing in flesh ever since. It astonished all who knew me, and all believed I was too far gone to make my recovery possible. Many people who knew me then are now living, and occupy places of honor and trust in New-Jersey and Philadelphia, who can easily satisfy the most incredulous relative to the truth of these statements. My disease was hereditary; my father, mother, brothers and sisters all died of consumption, and I alone am left.

Now I enjoy the best health, and have for years weighed more than two hundred and ten pounds. Immediately after my recovery I removed to Flemington, N. J., and for several years made the Pulmonic Syrup and gave it to the afflicted. It made such wonderful cures that the physicians of the place were astonished at its effects, and advised me to turn my attention to the science of medicine, and especially to the study of this disease. In fact, I was driven to it by the application of great numbers of people who came or sent to me from all parts of the country, calling on me to cure them, after all other human assistance was unavailable.

Since my recovery the Pulmonic Syrup has been extensively used for more than twenty-five years; and so well has it endured this long probation that its reputation and popularity have constantly increased.

Although it is an undeniable fact that some of the worst cases of consumption may and have been cured by the syrup alone, yet I early became aware that the cure may be facilitated, in many instances, by the use of two other medicines, which are found to be most admirably adapted to this purpose. These medicines are the Seaweed Tonic and Mandrake Pills. In order to understand how these medicines effect the cures which are ascribed to their agency, it is necessary to have some acquaintance with the peculiarities of the disease.

Pulmonary Consumption (phthisis pulmonalis) is characterized by emaciation, debility, cough, hectic fever and purulent expectoration. This disease has always been the greatest scourge of the human race, and it has destroyed more lives than famine, sword and pestilence. An English writer, some years ago, computed that out of a population of eleven millions in the island of Great Britain, fifty-five thousand annually die of consumption. The same fatality attends the disease in this climate. One principal cause of the great mortality which attends Pulmonary Consumption is, the false theory that it is incurable. This mischievous error causes many consumptive patients to despair as soon as the nature of their affliction becomes manifest; and when they are hopeless of a cure, they resign themselves to what they suppose to be inevitable fate, and die without making any effort to prolong their lives. "Our doubts are traitors," says Shakespeare. Consumptives are often victimized by a foregone conclusion that their cases are beyond the reach of medicine.

Pulmonary consumption is in most cases complicated with disorders of the liver and stomach. "Before the attack of this disease," says a French physician, "a change takes place in the condition of the blood, which becomes degraded in quality and endowed with a lower degree of vitality." This change is caused by the imperfect action of the liver, for one of the offices of that organ is to strain and purify the blood. Schenck's Mandrake Pills act on the liver more promptly and effectually than any other medicine. Hence they are often prescribed by me in the first stage of consumption, and in many other cases, when the torpid or diseased condition of the liver requires the use of this unrivaled pugative. Concerning the use of these pills, more will be said hereafter; in the present connection, it may be observed that their operation corrects that morbid condition of the blood which always precedes an attack of consumption, and is, therefore, presumed to be one of the principal causes of the attack.

In the next place, it is found that dyspepsia or a languid digestion is often a forerunner of consumption, and in numerous instances it accompanies the disease through all its stages. Dyspepsia is regarded by many medical writers as one of the prominent causes of consumption, and they have good reasons for this supposition, for the absence of nutrition in the blood leads to the formation of tubercles, and dyspeptic diseases deprive the blood of its nutritive properties.

While Dyspepsia is present, it is almost or quite impossible for Consumption to be cured. For indigestion produces a general debility of the system, and this state of debility is most unfavorable to the reëstablishment of the patient's health; for how can ulcerous cavities in the lungs be healed when the stomach has no power of digestion, and the system is, therefore, too weak to produce that reaction which is necessary for a cure? Nourishing food, after all, is the material which must bring about this great change. My medicines only assist Nature to overpower the disease, and to produce healthy secretions instead of the morbid matter which vitiates the quality of the blood. From these considerations it will appear that tonic or strengthening medicines are required in the treatment of Consumption, and especially such medicines as have an invigorating effect on the digestive organs. SCHENCK'S SEAWEED TONIC is compounded with particular reference to these objects, and it was first designed to be used in consumptive cases as an auxiliary to the Pulmonic Syrup. It is applicable, however, to all cases of dyspepsia, and it may be proved to demonstration that it is the only medicine which will cure that disease. Many eminent physicians have doubted whether Dyspepsia can be cured by drugs; and the drugs which are generally employed for that purpose, though they may seem occasionally to afford temporary relief, finally produce an aggravation of the symptoms. The Seaweed Tonic, in its nature, is totally different from such drugs. It contains no corrosive minerals or acids; in fact, it is so far from having any action hostile to the animal economy, that it assists the regular operations of nature and supplies her deficiencies. This Tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice, as all physiologists know, is the natural solvent which, in a healthy condition of the body, causes the food to be digested, and when this juice is not secreted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Seaweed Tonic performs the duty of the gastric juice when the latter is deficient. It has, likewise, all the invigorating properties of iodide of potassium, iodide of iron and iodine—remedies which are often prescribed by physicians to strengthen the constitutions of consumptive patients. From what has been said, it may be judged that Schenck's Seaweed Tonic is a most important remedy in the treatment of Pulmonary disease, and experience proves this to be the fact. One of the good effects of this Tonic is to enable the patient to digest such a diet as consumptive persons require. Physicians now admit that a highly nutritious diet is most proper for such persons. Indeed, the food cannot be too nourishing for consumptives if it can be made digestible. You may feed such a patient with articles rich and nutritive enough to produce gout in certain conditions of the system, but if the gastric powers of the patient are sufficient to assimilate those articles—in other words, if he is able to digest them—his lungs being thereby invigorated will begin to exercise their functions in a normal and healthy manner, and if a cure is possible, it must soon be effected.

The Seaweed Tonic, by improving the power of the stomach and strengthening the whole system, prepares the dyspeptic and enfeebled patient for the use of the Pulmonic Syrup. The operation of the latter is to increase the vital energies, to ripen the ulcers, and to expel all the morbid matter from the system. But as consumption is often coupled with dyspepsia or liver complaint, and as it frequently originates in these disorders, it is proper in some cases to begin with the use of the Tonic and Pills, or to use them simultaneously with the Syrup.

Schenck's Mandrake Pills relax the secretions and unlock the gall-bladder quite as well as a dose of blue mass, and perhaps better, and these Pills are warranted not to contain a particle of calomel. Some physicians have positively asserted that calomel or mercury must enter into the composition of these Pills, for, according to their theory, nothing but calomel could act on the liver, as these Pills certainly do. But to prove the doctors are mistaken, it is merely necessary to notice the fact that Schenck's Mandrake Pills never produce salivation, whether they be used in large or small doses. Thousands are used weekly with the happiest effects. With calomel or blue pill the case is different. Large doses of this poison may sometimes act as a purgative, and so pass off without any visible mischief; but small doses will salivate, and this is the great mischief which the "regular faculty" have to contend with. One box of these Pills, valued at 25 cents, will prove the efficacy of the medicine. No matter how costive or how bilious the system may be, the habit of body is immediately corrected and regulated by these Pills, and the organs brought to a healthy and natural activity. The Mandrake Pills are likewise an infallible remedy for sick headache and piles. In many cases they have brought away worms from grown persons who had long suffered with many unpleasant symptoms, without suspecting the real cause of their ailments.

I have rooms in New-York, Boston and Baltimore, where I am professionally every week. At No. 32 BOND-street, New-York, every Tuesday, from 9 to 3; at No. 38 SUMMER-street, Boston, every Wednesday, from 9 to 3; No. 108 BALTIMORE-street, Baltimore, every other Friday; and at my PRINCIPAL OFFICE, No. 15 North SIXTH-street, corner of Commerce, every Saturday. In all these places a plentiful supply of medicines is constantly kept on hand.

Persons living at a distance desiring to see me, and not able to visit me at my rooms, should address me at my principal office, in Philadelphia, when arrangements will be made to see them as soon as possible. For instance, while in Boston seeing my patients, to address me there to go and see a patient, which might occupy part of a day, it would interfere with my other engagements; but if previously addressed at my residence in Philadelphia, I can make arrangements accordingly, when they will be at once notified what day I can visit them, when they can decide whether to send for me or not. A personal interview is not always necessary, for each of my medicines is accompanied with full directions in English, German, French and Spanish. However, I am always willing to give my patients my personal attention, if they desire it.

Consumptive persons are earnestly exhorted to apply to me in time before the disease has reached its desperate stages. When the lungs are destroyed, of course no medicine can create new ones; but I maintain that the first stages of consumption are curable, and even when the lungs are considerably decayed, I often succeed in restoring the patient to health. While one sound lung remains I am certain of making a cure if the patient will take proper care of himself and strictly follow my directions.

I am the inventor of the instrument called "Schenck's Respirometer" used in examination of the lungs. It transmits the sound or rattling of the lungs so loudly and distinctly that, by experience, it is easy to determine how far the lungs are diseased, and what portion of them is involved. Thus the operator can unerringly determine whether the disease be Tuberculous, Pleuritic or Bronchial Consumption, or whether it is merely an affection of the bronchial tubes, sympathetic with the liver or stomach, and he can form a diagnosis accordingly.

They who desire to have a thorough investigation with the respirometer will be charged three dollars for that service; but all advice will be given gratis, and I will use my best ability to explain each case which may be offered to my consideration.

COUGHS AND COLDS.

When there is any predisposition to consumption the disease in one or other of its forms will often be developed by "a bad cold" or catarrh, the symptoms of which cannot be mistaken. When a person takes a cold easily, the stomach or liver is generally diseased. In this state of things the feeble condition of the system cannot resist the changes of weather, and other external causes of disease; and so every exposure brings on a catarrh, with its common symptoms and a bad cough, hoarseness, chills, slight pains in the breast, &c. These signs should not be neglected, and it is highly important that the sufferer should know what to do. When one cold is taken "on another," as the phrase goes, the bronchial tubes, or the lungs become more or less diseased. A few bottles of Schenck's Pulmonic Syrup and Seaweed Tonic and a box of Mandrake Pills, would make a perfect cure; but, instead of resorting to these safe and efficacious remedies, patients often consult a "regular physician" whose regularity consists in prescribing calomel, opium, etc., on all occasions. Thus, for cure of cough or cold morphia, black drop, paregoric, and still more objectionable articles are often taken, in compliance with the doctor's advice. These medicines may mitigate the cough for a time, but the disease in the lungs goes on until the unmistakable symptoms of consumption begin to appear. It may be seen, therefore, that the preparations of opium, etc., which are usually prescribed in bad colds and in incipient consumptions, merely conceal the disease by suppressing some of the symptoms; but on that very account they do harm by making the malady more insidious and therefore more dangerous.

Let it be remembered that when the stomach and liver are in good order there is little liability to take cold, or if one is taken, it generally passes off without producing any serious or alarming effects. On the contrary, when persons are laboring under indigestion or any disorder of the liver, the least exposure may induce all the symptoms we have described above. The cold taken will maintain a firm hold on the system, and, if not properly treated, will be most likely to end in consumption. My SEAWEED TONIC and MANDRAKE PILLS are used as a safeguard against colds—the first in cases of dyspepsia and all diseases of the digestive organs, the latter in all affections of the liver, for which they are proved to be an infallible remedy. Very often a dose or two of the Mandrake Pills perfectly cure a recent cold without any other remedy.

I. BRONCHIAL CONSUMPTION.

This disease is generally the result of neglected cold or catarrh. "Sometimes," says Dr. W. Beech, of New-York, and Ira Warren, of Boston, "it is the consequence of measles, or disorders of the liver or digestive organs." As I remarked, (under the head of "coughs and colds,") while the stomach and liver are in a healthy condition, there is but little liability to take cold; and, if no cold is taken, there can be no acute bronchitis, and, of course, none of its successor—Bronchial Consumption. Therefore, as a preventive, the Seaweed Tonic and Mandrake Pills may be used with entire confidence when symptoms of indigestion and liver complaint have appeared. No one who judiciously uses those two medicines, or either of them, as circumstances may require, need apprehend an attack of Bronchial Consumption; but if the use of these preventives has been neglected, and this form of consumption has commenced, it will be necessary to use the Pulmonic Syrup in addition to the other remedies.

The commencement of Bronchial Consumption is indicated by an obstinate and troublesome cough, attended with a copious expectoration of viscid and purulent, or a whitish, frothy matter. At first the symptoms resemble those of an ordinary cold or catarrh; the expectoration being tough, thick and opaque, but not yellow, containing small grayish lumps, which sink in water. As the disease advances the cough increases, and this tough mucus or phlegm becomes more and more mixed with a yellowish fluid resembling pus or matter, and often slightly streaked with blood. At first the pulse becomes slightly accelerated and tense toward evening; and the heat of the surface of the body varies in the course of the day, being sometimes above and sometimes below the natural standard. Partial sweats occur in the head and breast at night. The thirst is generally considerably increased; the urine is highly colored, and deposits a copious reddish sediment. A sense of soreness in the chest, with an occasional transient stitch in the side occurs in the majority of instances, but there is very rarely any fixed pain in the chest. The cough is usually severe, particularly on rising out of bed in the morning, at which time the breathing is more or less wheezing, and attended with a feeling of tightness in the chest.

If the disease continues unchecked in its course, the expectoration becomes purulent and extremely copious. Debility and emaciation increase rapidly; the difficulty of breathing and sense of weight and tightness across the chest, become more and more distressing. The pulse is now generally very frequent, being seldom under 120 in a minute. In the early part of the day, the face is usually pale, but a deep flush of one or both cheeks is commonly observed toward the evening. The tongue becomes clear, and in many instances it assumes an alarming appearance, and is redder than in health. There are generally profuse and exhausting night sweats at this advanced stage of the disease, and, unless relief is found, swelling of the ankles and diarrhea follow, and death closes the scene.

In many cases the Pulmonic Syrup alone will cure this form of Consumption; but when the bowels are costive, the liver torpid, and a want of tone exists in the digestive organs, the Seaweed Tonic and Mandrake Pills are necessary—the former to stimulate and invigorate the organs of digestion, and the latter to invigorate the liver and bowels.

II. DYSPEPTIC CONSUMPTION.

The complication of gastric or hepatic disease with Pulmonary or Bronchial Consumption is of frequent occurrence; and, as this combination produces certain phenomena in addition to the usual consumptive symptoms, some physicians have supposed that this is a distinct disease, which they call Dyspeptic Consumption. However, in some cases of this kind the lungs or bronchial tubes are only sympathetically affected, the primary disorder being confined to the stomach or liver. But the transition from this disorder to real Consumption is sometimes very easy and rapid; and for this reason the premonitory symptoms about to be described should meet with prompt attention. All disorders of the stomach and liver produced more or less of that debility and abnormal condition of the blood which we have noticed as the precursor of Consumption.

"Dyspeptic Consumption" usually begins to manifest itself by a general weakness of the system, and the common phenomenon of indigestion, frequently accompanied by cough, difficulty of breathing, and other symptoms of pulmonary disease. But very often, in such circumstances, if the tone of the stomach can be restored, and the system strengthened, the whole train of symptoms disappears, and the patient will be restored to health. For such cases as this, my Seaweed Tonic is particularly designed, as the reader may judge from the account of its medical properties given above.

When Dyspeptic Consumption originates in disorder of the liver, the following symptoms will appear: A dull pain or tenderness in the right side, with increased uneasiness when lying on the left side, irregularity of the bowels, foul tongue, depression of the spirits, a sallow hue of the skin, yellowness of the white of the eye, furred and brown tongue, nausea, and sometimes vomiting. My Mandrake Pills, used according to direction, will remove all these symptoms by clearing away all obstructions from the liver, and restoring its healthy action.

In order to have a clear understanding of the nature of "Dyspeptic Consumption," it is necessary to have some knowledge of the anatomy of the parts affected. The office of the liver is to strain off the bile from the blood. When the liver is inflamed or torpid, its work is not well performed, and the blood becomes surcharged with various impurities, which will probably be deposited on some of the vital organs. The mischief may be aggravated by indigestion, as that disorder tends to vitiate the quality of the blood. The Mandrake Pills, as mentioned above, effectually clear away all obstructions from the liver and biliary ducts, and produce a healthy action on the liver, which prevents the congestion just described, enables that organ to strain and purify the blood, and of course prevents those morbid deposits which lead to Consumption and other dangerous maladies. As we remarked before, the use of the Seaweed Tonic is advisable when the energies of the stomach are impaired and symptoms of indigestion are present. The purification of the blood cannot be immediately effected by any medicines. The Seaweed Tonic and Mandrake Pills attain this object by acting on the stomach and liver, and thus produce vigorous and healthy digestion and promoting the operations by which the blood is strained and purified in the manner just described. And when the blood is thus restored to a normal and healthy state, the formation of Pulmonary Bronchial Consumption is absolutely impossible.

If, by neglect, the disorders here described have been allowed to debilitate the system to such a degree, and to deteriorate the blood, so that the first bad cold which the patient takes fastens on the lungs and bronchial tubes, and thus produces the unmistakable signs of Bronchial or Pulmonary Consumption, the Pulmonic Syrup must be used, together with one or both of the other remedies, as circumstances may require.

For the cure of the complicated disorder known as "Dyspeptic Consumption" the Pulmonic Syrup cannot be too highly recommended, as, from its alterative effects, it produces healthy secretions, and in conjunction with the "Seaweed Tonic," which restores tone to the stomach, and enables it to properly digest the food, and the "Mandrake Pills" to bring about a healthy action of the liver, a cure is certain. The directions which accompany the Syrup explain when and how to take the Seaweed Tonic and Mandrake Pills.

III. PULMONARY CONSUMPTION.

This is the most dangerous form of consumption. The causes which produce it are very numerous, such as hereditary disposition, a particular formation of the body, certain diseases, as catarrh, small-pox, measles, liver complaint, dyspepsia, etc.; particular employments, grief or disappointment, and, in short, any cause which disturbs the healthful operations of nature, and produces the diminution of the vital tone which always precedes an attack of this disease.

Pulmonary consumption commences with a feeling of lassitude, slight aching pains, with a sense of tightness in some parts of the chest, and a short, dry cough, which is readily excited by muscular emotion. The breathing is shorter and more frequent. These symptoms gradually become more conspicuous, and at length slight fever occurs toward the evening, and the respiration and pulse continue to be somewhat accelerated throughout the whole day. A fit of coughing usually occurs in the morning, and the patient rises out of bed in a relaxed and feeble condition. There is an extreme liability to take cold on the slightest exposure. By degrees, the cough becomes more frequent and troublesome particularly in the evening and morning, or at night on awakening from sleep. As the disease advances, the skin, lips, tongue, fauces becomes dry in the afternoon, slight chills regularly occur toward evening, followed by fever, during which one or both cheeks become suffused with a circumscribed flush; a dry burning heat is felt in the palms of the hands and soles of the feet, the breathing is very quick and short, and the pulse very frequent, small, quick and tense. These febrile paroxysms continue till toward midnight, when they terminate in more or less profuse perspiration, which continues until morning leaving the sufferer exhausted, languid and depressed. Frequently previous to the occurrence of this train of symptoms, the expectoration becomes thicker, and not unfrequently mixed with blood. The feeling of a load in the chest and emaciation increase, attended with increasing failing of strength.

Toward the unfavorable termination of the disease, swelling of the feet and diarrhea almost invariably come on, accompanied with a weak and hoarse voice, difficulty of swallowing, and sometimes ulcerated throat, until death relieves the sufferer.

It is generally admitted by medical men of every school that this form of consumption cannot be cured by any application of their art. However, some of the most liberal and enlightened physicians in Europe and America have thought otherwise; and, as the testimony of experience is more reliable than any hypothecated authority, I am enabled to declare and to prove that Pulmonary Consumption can be cured, and that it has been cured in very many instances; and that even when it has advanced to some of its last stages, one of the first indications of cure is to strengthen the system, and this may be done by the means pointed out above. For that debility which marks the commencement of the disease my Sea-weed Tonic and a highly nutritious diet are the best remedies. When the system is strengthened, and the digestive organs are restored to their healthful tone, the most alarming symptoms will sometimes disappear. But should it prove otherwise—and if appearances make it evident that the lungs are beginning to decay—my Pulmonic Syrup will arrest the progress of the disease, sometimes almost immediately, when the circumstances are favorable, and sometimes when the case, by neglect or delay, has become almost hopeless, and quite so in the estimation of physicians generally. The Syrup promotes expectoration and thus enables the system to throw off the disease. No one denies that when the patient cannot discharge the morbid matter by expectoration, death speedily ensues. The Syrup by keeping the phlegm loose enables the patient to raise it easily, and the diseased matter which obstructs the lungs is removed, the ulceration is healed, and the sufferer is gradually restored to health.

Evidence of the curability of Pulmonary Consumption will be found in the pamphlet gratuitously distributed from my office, where the certificates of many respectable persons may be seen, showing that many have been cured of this disease in its various forms and complications. The fullest investigation is solicited. I have many patients in the principal cities of the United States, and I give them my personal attention, traveling from one city to another for that purpose.

NEW-YORK, March 21, 1863.

DR. J. H. SCHENCK: *Dear Sir*—I feel it a duty I owe to you, and all who are suffering from the disease known as consumption and liver-complaint, to let them know what benefits I have received from your Pulmonic Syrup and Seaweed Tonic in so short a time. By the blessing of God, it has cured me thus far. Dr. Schenck, I will now make my statement to you as follows: About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; bowels swollen, irregular and costive. I was very low-spirited, and had such violent spells of coughing when I lay down at night, and when I arose in the morning, that they would last one or two hours. I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time; and I was confined to my bed from the last of February, 1862, to June, 1862, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad, it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood, and it was generally accompanied by a nausea and a furred and thick-coated tongue. At the time of coughing so badly, I would have sharp, shooting pains in my left side and heart, night sweats and soreness all through my whole chest; had much inward fever, pains in my back and under my shoulder-blades, and in the small of my back, and at times so severe that it would throw me into spasms. Now my physicians gave me up to die. Others I had and the best of them; but they could do nothing for me, and at that time I was nothing but skin and bones. I was then in the western part of Missouri. In June last, we left there for the east, and in August last we came to New-York and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time, the salt water breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians in New-York on the diseases of the lungs, and doctors of all kinds, but of no avail. They said that I was past cure and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In November last, I grew worse, and the Consumption Diarrhea set in, and lasted about eight weeks. We had tried all and everything I could grasp at, like a dying person, for my diseases—Consumption and Liver Complaint—but of no avail. In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, with other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the *Sunday Mercury*. In it was an account of a wonderful cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hope of ever getting well again, and made my peace with God, to be ready whenever He called for me. On the 27th of January, 1863, my husband called on Dr. Schenck, No. 32 Bond-st., and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respirometer. When he was about to go, I asked him if he could cure me. His reply was: "I cannot tell; both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said, in order to do this, he would have to give me Mandrake Pills, in small doses first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night-sweats and diarrhea had prostrated me so that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration, there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seaweed Tonic at once, saying it would do me no harm, if it did me no good. I that night commenced taking a tablespoonful three times a day each. The first week it seemed to give me strength, so that on Sunday after I sat up in bed, and ate hearty for a sick woman; but the next week I lost all hope, and wished my husband not to give me any more medicine. But the doctor had warned him of this, that when the medicine was cleaning out the system it made them feel sometimes restless, but to persevere, and he insisted on my taking it; and now I feel the benefit of it, for after eight days I began to gain my strength, and, with the exception of a cold, that put me back some, I have been gaining of body; my cough is going away, and all my pains are gone; no soreness on the body; my bowels are regular, and my breath is sweet; and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I have now a good appetite, and rest well at night; my cough does not trouble me, save in getting up or lying down. I would here say to the afflicted with Consumption or Liver Complaint, that Dr. Schenck is no humbug. You can rely on what he says. Delay not; it is dangerous to trifle with the disease. If you would be cured, go at once, and any one wishing to know the facts as herein stated, can call at my residence, No. 117 West Houston-st., New-York City.

MRS. MARY F. FARLOW.

We, the undersigned, residents of New-York, are acquainted with Mrs. Farlow, and know her statement to be true. We also know that she used Dr. Schenck's Pulmonic Syrup and Seaweed Tonic, and have reason to believe that to this medicine she owes her preservation from a premature grave.

EXTRAORDINARY CURE OF A RUNNING TUMOR BY DR. SCHENCK'S MEDICINES.

THE HEALING POWERS OF SCHENCK'S PULMONIC SYRUP STRIKINGLY ILLUSTRATED.

THE CASE OF MRS. MARY BARTHOLOMEW,

No. 83 West 45th-st., New-York.

This is to certify that I have been laboring under a disease, supposed to be Liver Complaint, for a great many years. There was a hard swelling in my side, which became quite large. The doctors called it a tumor. After some time it broke, and continued running for fourteen years, sometimes discharging a thin watery matter, and other times green bile. I had the best medical attendance in New-York, and my physicians all told me that the ulcerous hole in my side must not be healed or the discharges from it stopped, or I would soon die. My physicians gave me calomel or mercury until my mouth became very sore, and several times I was salivated as badly as any one could be without dying under the process. No one could be tortured more than I was, and live through it. Within the last year my strength began to fail me more than ever; my blood seemed to stop flowing; my pulse at times ceased to beat for fifteen or twenty seconds at a time. My skin and the whites of my eyes were as yellow as saffron. I knew not what to do, and my doctors acknowledged that they could do no more for me. I was unwilling to try what is called "patent medicines," for I thought that I had nearly all the best physicians in New-York to attend me, and if they could not help me, no one could. At this time, when I had begun to despair, a friend of mine brought me a *Sunday Mercury*, in which I read the certificate of a wonderful cure of Consumption, the patient having been confined to her bed, and apparently in the last stage of disease, and yet was cured by Dr. Schenck. I would have considered this as trickery or deception, had it not been certified to by many respectable persons, with the indorsement of Rev. Dr. Dowling. This gave me encouragement, and I was impatient for a consultation with Dr. Schenck, having to wait for Tuesday, one of the days of his regular attendance to patients in this city. It was about the last of July, 1863, when I called on Dr. Schenck, at his rooms, No. 32 Bond-street. He said he understood my case, and gave me all three of his medicines—Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—and within nine days there was a great change in my feelings. The hole in my side discharged more than ever; still I felt better, and began to entertain hopes of a cure. I could feel the Pulmonic Syrup operating through my blood. The Seaweed Tonic acted on my stomach in an indescribable manner; but in a very short time it gave me a very ravenous appetite, but not until I had taken nearly a box of Mandrake Pills. No one could believe that any human stomach could contain such an enormous quantity of corruption as I discharged. It seemed that for nearly two weeks nothing but green bile and unhealthy matter passed my bowels. My complexion changed, my skin began to look clear, and, to my great astonishment, I found the tumor healing up. I did not know what to think of that, as the doctors told me that if the ulcer healed my death would be the immediate consequence. I longed for the next Tuesday to see Dr. Schenck. He said that I was doing well, and that I would soon be as well as ever; and, thanks to kind Providence, this promise has been fulfilled. This day I feel as well as ever I did in my life, although it is only three months since my case appeared to be desperate. All who know me are astonished at the change. The running ulcer of so many years' continuance is entirely healed, and I have no more of that dull, heavy, sleepy feeling which I used to experience almost without intermission. I rise in the morning without having a bad taste in my mouth or a furred tongue, and I always have an excellent appetite for my breakfast. I am satisfied no one can speak too highly of Dr. Schenck's medicines and their effects. For my part, language is inadequate to express my gratitude. I feel that Dr. Schenck's medicines, by the providence of God, have been the means of the restoration of my life, for which I shall ever be thankful.

Several of my friends through my recommendation, have been using Dr. Schenck's medicines for Consumption and other diseases of that kind. All of them have been greatly benefited. I make this public statement in order that the thousands who suffer from diseases similar to mine may be induced to try Dr. Schenck's invaluable medicines. Do not think, as I did, that if your favorite doctor cannot help you, no one can. I would advise every consumptive person to go and see Dr. Schenck and follow his prescriptions. Take his advice, at least, if you do not take his medicines. It is encouraging to hear the people conversing in his rooms and describing the benefits they have received from his treatment. Their looks show that they have no deception in them. They are all anxious for help, and are being helped. I wish all who were afflicted as I was to call and see me, for I feel that I can satisfy every one of them that this statement is not exaggerated. I relate all the particulars because I know that many are like what I was—skeptical. I have requested a number of my friends to append their names to my statement, in order that no person can entertain any reasonable doubts on the subject.

MRS. MARY BARTHOLOMEW.

We, the undersigned, friends and acquaintances of Mrs. Bartholomew, who gives the above certificate, have known her for many years, and do certify that the statements made by her are entitled to full credence, and that the account is not at all exaggerated. Scarcely any person who knew her three months ago would recognize her now, such is the alteration in her appearance.

DR. SCHENCK—*Dear Sir;* The following statement is due to you for the wonderful cure your medicines have made on me, and which may seem almost incredible to the public, but nevertheless is true. I lived in Stamford, Conn., and caught a heavy cold, which settled on my right lung. I grew worse and worse, in spite of all medical skill; had an incessant cough day and night, creeping chills, nightsweats, and no appetite. I gave up to die. My physician said that my lung was nearly gone, and that I must die; that no human power could save me. I came to New-York to reside with Mrs. Bartholomew. After I had been here a few days, I was taken with a severe hemorrhage. I thought I would bleed to death. Mrs. Bartholomew related to me her own case—how bad she had been for over fourteen years, and cured by your medicines. She insisted that I must go with her, on the next Tuesday, down to your rooms, at No. 32 Bond-st. I went, and on seeing so many people with consumption, I got very nervous, and wished I was home again. On my turn, I was examined by you with your Respirometer, and after you had finished, I shall never forget your countenance; it said that my case was hopeless. You said that I had pulmonary consumption, and that in all your examinations had never found one lung so far gone and the other so sound, and was afraid I must die. Mrs. B. said that she was certain that she had seen persons under your treatment as bad as I was when she first came to your rooms, and were cured by you. She insisted that I should try the medicines. You gave me all three—the Pulmonic Syrup, Seaweed Tonic and Mandrake Pills—and told me exactly how to take them. They seemed to take hold of my lungs at once, and with the cheering words of Mrs. B. I was greatly encouraged. I could raise large quantities of blood and matter from my lungs. My appetite came to me. I gained flesh and strength. I think I have gained as much as thirty-five pounds. I raise no more blood. I am now well and hearty. No one, to see me now would believe that I ever had consumption. Many have heard of my case and have called to see me. Several physicians have examined my lung, and all appeared to be astonished, for the lung was so diseased, has got such a peculiar roaring sound, that they cannot see how it was possible for such a cavity to be healed. My physician at Stamford examined me after my cure by you, and said he congratulated you very highly for the remarkable cure you had made of me. I am at Mrs. Bartholomew's, and will be happy to see any one who may see fit to call on me.

GREAT CURE IN THE CITY OF NEW-YORK, OF A HIGHLY RESPECTABLE CITIZEN, WELL KNOWN TO THE MERCANTILE COMMUNITY.

OFFICE OF NEW-YORK AND GALENA LEAD COMPANY, No. 23 NASSAU-ST., NEW-YORK, June 1, 1865.

DR. J. H. SCHENCK—*Dear Sir:* For over fifteen years I have been troubled with severe cough, and usually two or three times a year with more or less hemorrhage, which, together, for the last few years have kept me thin in flesh, and too weak to do business of any kind without suffering. In August last I had a very severe hemorrhage, and, according to the judgment of a good New-York physician, I was classed as beyond the reach of medicine, and was advised to be prepared, so far as property matters were concerned, to leave this world at short notice. This physician (and my good friends) said "The first severe cold I took must prove fatal." Early in January I took a very severe cold, and fortunately was occupying rooms at No. 32 Bond-st., directly over your office. I think about the 6th of January I procured a bottle of your Pulmonic Syrup, and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a speedy death seemed to accompany my cold. I sent for my former physician, and stated to him that I was taking your medicines, and after showing them to him, and having tasted of them, &c., he replied, "You can take them if you like, they will do you no harm." He said: "You know what I told you last Summer, and I say the same now; if you have any business to close up do not put it off." He said to other friends that "he could see no hope for me," and my friends and relations concluded my time had come. At this time I was taking freely of your medicine, but had not seen you. The Doctor called a few times and found me, (much to his surprise, he said,) improving, and he could not understand why. My faith was increasing in your medicines, and I had a wish to have you examine my case and see what you had to say. When you first came to my room and made the examination you gave me little encouragement, but, on the contrary, expressed doubts of my ever being helped out of my then seeming difficulties. The second time that you called, finding me still gaining, you gave me encouragement, saying my symptoms were improving; the Pulmonic Syrup, Seaweed Tonic and Mandrake Pills had acted like a charm. My circulation, my cough, my appetite all began to improve, and I could walk about my room a little. You visited me nearly every Tuesday and found me improving, and told me not to go out of my room until the first day of May. I took no cold while under your treatment; my appetite became first-rate, and you told me to eat everything I wished of a nutritious nature, and to exercise about the room as much as possible. I took your advice, and to the surprise of my old physician and friends I seem much better than I have for several years, and breathe better than I ever expected a person could with one lung, the left being completely dried up. I feel very grateful to you, and consider your advice and medicines invaluable.

Yours, truly,
T. S. SHELDON.

ANOTHER RECENT CURE OF CONSUMPTION AND BLEEDING OF THE LUNGS BY SCHENCK'S PULMONIC SYRUP.

PHILADELPHIA, Penn., Jan. 2, 1862.

DR. J. H. SCHENCK—*Dear Sir:* As you have cured my wife of a well-marked consumption, when she was, as it were, in the very jaws of death, justice to yourself as well as duty to my fellow-men, impels me to address you this letter, and detail the condition of my wife and the very remarkable effects of your medicines in her case. More than three years ago she was taken with a copious Bleeding from the Lungs, attended with a very bad Cough, Loss of Appetite, Pain between her Shoulders, Headache, Cold Feet, and a gradual decline of her physical powers. I called in our family physician, who is regarded as one of the ablest practitioners in this city. He continued to attend her for a long time, and during that time she had several attacks of hemorrhage from the lungs, which made her very weak and brought her nigh the grave. It was when I felt that her chance for life was very bad that Mrs. Edward French, of Morristown, N. J., who had been cured of Consumption and Bleeding of the Lungs, and who knew Dr. Schenck when he had the Consumption and came near dying, and knew he was cured with his celebrated medicines, sent word to her by all means to apply to Dr. Schenck, as he would be sure to cure her. At this time my wife was very bad. She was much reduced in flesh and strength, had no appetite, a very bad cough, which [illegible] to deprive her of sleep. She had a pain and distress in her lungs, and it was evident to us all that she was far gone with Consumption; in the afternoon she would have fever and creeping chills, and at night free sweats. After Dr. Schenck had given her an examination with his Respirometer, he pointed out to my wife the part of her lungs that was badly diseased. She had little confidence at this time in any remedies, as she had used nearly everything in medicine without the least benefit, while her disease was progressing to the destruction of the vitals, and would doubtless soon terminate in death. She commenced using the Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic, and continued to use them about a month, seeing Dr. Schenck once a week, when she experienced a marked improvement. There was this difference in the effect of these medicines from all others: Instead of drying up the secretions and matter, as the other medicines had done, they seemed to ripen the matter and expel it in the form of expectoration, which was very copious, at the same time the secretions were restored to their natural and healthy condition, and the blood began again to circulate naturally.

The medicines were continued a long time, as the disease was well seated, and obstinately resisted the action of the medicines. At length the matter began to ripen, and the cough became loose, and free discharge of matter occurred right from the spot where my wife felt that her lungs were diseased. Her appetite and digestion improved, and she enjoyed what she had long been a stranger to, sweet and refreshing sleep. The medicines continued to act upon the blood and purified it, and after four or five months she had regained her strength and felt that her system was purified from all disease. She is now well and hearty, and able to attend to the duties of her family, and cannot speak in terms of too great praise of the virtues of your medicines. She is desirous that everybody shall know what they have done for her, and will be glad to direct any one to the remedies that will cure that fell destroyer of the human race—Consumption. I reside at No. 607 Arch-st., and Mrs. Lanning or myself will be very happy to have any one call on us, at our residence, and hear for themselves of the great virtues of your very valuable medicines.

Yours truly, G. W. LANNING.

CLERGYMAN CURED OF CONSUMPTION BY SCHENCK'S PULMONIC SYRUP.

Clergymen, read this, and, if you feel convinced, it is your duty to recommend the means of healing the body as well as the soul:

BOSTON, Mass., Dec. 2, 1862.

DR. J. H. SCHENCK—*Sir:* I feel it my duty, for the sake of the sick and suffering of humanity, to relate to you the following facts:

Last May I was attacked with hemorrhage of the lungs and bled profusely, and, not finding the proper remedy, still again I bled, one month later, and became weaker than before. Then I fully comprehended the danger, and cast about me for an ægis from the impending doom.

Naturally skeptical and fearful of being duped, having an inveterate abhorrence of empirics, I was slow to trust; and with regard to your medicines, I was obstinate, even to a fault. Not until the living witnesses, healed, recovered, with full breathing power, stood before me, would I be persuaded. Not until the efficacious balm was purchased and brought to my room, and forced upon me, would I try it. Two of my parishioners informed me of their wonderful discovery; one had taken nineteen bottles of the Pulmonic Syrup, for bleeding of the lungs, and was completely cured, and is now doing battle in the service of his country. The other was a person who was on the verge of death for more than a year, bleeding at every little excitement, and despairing of recovery until she found relief in your Syrup. She came before me apparently in the very bloom of health, with brilliant, florid countenance and portly bearing—the last person I should have suspected of having ever been under the pale sheet of New-England's fell destroyer—consumption.

She looked to you as the mighty deliverer from its scourge, and to your Syrup as a panacea from the complaint. She was a member of my church and felt an interest in my recovery; and though sanguine, and even enthusiastic, as she had a right to be, because she herself had been healed, yet there stood the living, visible truth before me. Could I doubt her word? Could I refuse a remedy so mild, so palatable and yet so efficacious? No! Life was too precious, yet too precious, to delay a moment. I took six bottles of the Syrup and, recovering rapidly, I went into the country for three months for the benefit of the air.

But alas! the air could not benefit me without the medicine. I went without that, and after bleeding again I resolved to come back. I was much fatigued on arriving in Boston and bled the same night. My case was again critical. I immediately applied for the Syrup, and soon began rapidly to improve, and recover what I had lost. I am still under treatment, but have nearly recovered. I never weighed so much as I do now. I never looked so full in the chee ; and, excepting a nervous weakness about the chest and a frequent eructation of wind, I am quite strong. These, however, are receding before the Mandrake Pills and Seaweed Tonic. I have taken them but a few days but have found great relief. According to present appearance I shall be able to preach again very soon and come out of the sickness stronger than I ever was before.

As our callings are similar in striving to relieve the ills of life—you for the body, I for the spirit; you for the sick, and I in preaching to the poor—I feel it my duty to lay before the world my testimony in favor of your Pulmonic Syrup. Yours,

HENRY MORGAN,
Pastor of the Union Mission and First Independent Methodist Church of Boston.

P. S.—Feb. 8.—Preached this day for the first time after my illness; feel a little sore at the breast, but nothing more. March 1, preached twice; feel quite strong. March 22, preached three times, and held meeting every night; therefore I may be considered a well man. Thanks to the name of Dr. J. H. Schenck. Under God, your medicines have cured me. In reply to the many inquiring letters sent me from almost every Northern State, I say to one and all, I am the man; and wherein I was sick I am now healed. I am not the only one relieved in these parts, but several of my acquaintances have been recently benefited. One of my parishioners, after spending a large sum on physicians, and growing nothing better, but rather worse, applied, as a last resort, for the Syrup. At first it did not agree with him: it was too sweet, and threw him into violent retching. He then took the Tonic and the Pills to prepare the way for it, and persevered in taking it, until now, instead of going to sea, as he contemplated, to save his life, he has gone to work. And many others I might name. I have taken thirty bottles of the Syrup and many of the Tonic. The Tonic and Pills, I perceive, are in great demand in Boston.

Yours, H. MORGAN.

MEDFORD, Mass., December, 1861.

DR. SCHENCK—*Dear Sir:* Feeling that it is due to you that I add my testimony to the many others who have been willing to give their own experience in favor of the great benefit derived from your medicines, I cheerfully take this opportunity to send you the following statement of facts, which you are at liberty to make such use of as you may deem most proper.

For many years, on taking cold, I have suffered much, and oftentimes severely, with a cough. In September, 1860, I was attacked with a severe hemorrhage of the lungs, which produced a perfect derangement of the whole system. I lost my appetite, was entirely unable to take much exercise, could stand erect but with the greatest difficulty, could not go up stairs without much suffering, and labored under a general debility of the whole physical organism, the mind partaking, of course, of the deranged state of the body. Having become greatly emaciated, and, to all appearances, fast wasting away in consumption, and having received much medical treatment common in such cases, to but little effect, I was advised to try cod liver oil and whisky. This I adopted, and continued it till my stomach fairly loathed it, my strength failed, and I became sure that it was fast doing me more hurt than good; but, to be sure, the whisky stimulated for a while, and with the oil served as a fatty nutrition; but, upon the whole, I was left more debilitated, and not at all benefited.

Having become satisfied that the other prescriptions had failed to do me permanent good, and finding myself fast wasting away under the symptoms of Pulmonary Consumption, suffering severely with soreness of lungs, distressing and continued cough, and pain in the side and across the shoulders, I was induced to try other means of relief.

Knowing something of the value of your Syrup, having used it to good effect for a temporary cough, I was determined to drop all "dosing," and take your medicines alone. I had now become greatly reduced, weighing only ninety-six pounds, and daily growing weaker. But, with faith on my side, I obtained and used your medicines according to directions. I made no half-way about it, but intending, if a cure could be effected, I would do my best to secure it. I commenced with the different kinds recommended for cases like mine, and gave them a fair trial, and I am happy now to say that my anticipations are more than realized. Although not wholly restored to perfect health, yet I call myself "well." I can enjoy going out, and can walk quite a distance without labor or fatigue; can sleep well and have a good appetite, and life again seems something to be desired. I now weigh 110 pounds, and continue to gain in vitality and strength. I still continue to take the medicine, to which, I am sure, I owe my life, by the help of Him who governs all things, and that continue, though I now need but very little. In a short time I expect to say "I am very well."

And now let me say to those who read this, that it is a "free-will offering," and is thus given to the world in hopes that many may be benefited by its perusal. Let those who are afflicted as I have been, try as I have done, your most excellent medicines, and I will assure them that they will find it all that I or any one else have represented it to be. Most respectfully, yours gratefully,

SARAH W. FOSS.

THE GREAT CURE OF PETER STRYKER BEEKMAN.

One of the greatest cures of Pulmonary Consumption on record, by Dr. Schenck's Medicines. This is a cure made several years ago.

I, PETER STRYKER BEEKMAN, resident of the township of Hillsborough, County of Somerset, and State of New-Jersey, do hereby testify to the following facts: About seven years ago I was attacked with a pain in my right side, and darting to my right shoulder, with other bad symptoms, which made me very sick, and which my physician pronounced the liver complaint. After being under his care a long while he pronounced my case incurable, and ceased attending me. I would occasionally get better and work a little, but it would be misery; and then a relapse would occur, and I would be worse than ever.

I began to cough, which was tight and dry, dizziness in my head; my kidneys were severely affected and I had a severe pain and soreness in the pit of my stomach; my food did not digest, and it appeared to me as if my stomach was completely stopped up, for everything I ate was immediately rejected; my bowels were very costive, my cough increased, and I became very weak, and my flesh was nearly all gone, and I was reduced to nothing scarcely but skin and bone. I continued to get worse, seldom able to work, and confined part of the time to my bed, and sometimes all the time. I called in, at different times, all the physicians of eminence in this section of the country. I tried a great many remedies, both at home and abroad, but none of them would afford me any permanent relief. I continued in this miserable condition, and all my friends thought, with myself, that I must soon die, when Schenck's Pulmonic Syrup was highly recommended to me. On the 1st of March last, I commenced using it. After I had taken one bottle, it produced a happy effect upon my kidneys. I continued using it when a few mornings afterward I brought up about half a pint of yellow matter. I kept steadily on, and a few days afterward I brought up, as near as I can tell, about two quarts of the most horrible stuff I ever saw, consisting of phlegm, matter and a great deal of tough, solid substance, resembling tripe. I soon felt better.

I then found for several days something start and tickle in my throat, when, upon coughing, I would bring up something resembling black scales and scabs. I brought up a great number of those, and it appeared to me as if the Pulmonic Syrup had reached the root of my disease, and was now clearing it entirely out of my system. I took in all twenty-four bottles of Dr. Schenck's medicine, when I felt as if my disease was all gone. I felt weak, my appetite was good, my food digested good, and my bowels became regular. I soon began to gain strength. I have worked hard on my farm all Summer, and have felt very well, except a little weak. I still continue to gain strength, and believe I shall, in time, get as strong as ever I was. This is the first Summer in seven years that I have worked on my farm to make a full hand. I feel that words are inadequate to convey on paper a proper description of the miserable condition which I was in. I have suffered days and weeks the most bodily anguish, and I would take great pleasure in giving a more minute description of my cure to any one who would call on me, as I could do it much better than [illegible] on paper, and I would gladly tell any one of the great benefit I received from Dr. Schenck's Pulmonic Syrup.

I believe it has entirely cured me—I know well that it has done much more for me than all the doctors or anything else could do. I have no hesitation in recommending it to everybody. I have advised several afflicted friends to use it, and they have done so with great benefit. I live near Branchville, in the County of Somerset, and will at any time be pleased to see all who call upon me, and I hope they will be gratified in hearing from my own lips the recital of one of the most extraordinary cures ever performed in this section of the country.

PETER STRYKER BEEKMAN.

State of New-Jersey, Somerset County, ss.:

Personally appeared before me, the subscriber, Presiding Judge of the Court of Common Pleas, in and for the County of Somerset, Peter Stryker Beekman, and having been duly sworn according to law, did depose and say that the facts above stated and by him subscribed in relation to the cure effected by Schenck's Pulmonic Syrup, are true, and further he saith not.

W. B. GASTON.

SOMERVILLE, Somerset County, Sept. 18, 1848.

I do hereby certify that the state of illness of Mr. Beekman, as by him above described and his restoration to health, are true; and further, that he is a man of unimpeachable character and standing, and high respectability in the neighborhood.

W. B. GASTON.

This is to certify that Peter Stryker Beekman is a member in good standing of the Second Reformed Dutch Church, in Somerville, of which I am pastor; that he is a man of unimpeachable character for integrity and truth, and that his statements are true.

A MAN ALMOST RAISED FROM THE DEAD.

His certificates certified to by his neighbors.
His certificates certified to by the officers and members of his Lodge of I. O. of O. F.

I, John C. Green, of the Village of Tacony, in the City and County of Philadelphia, do hereby certify to the following facts: That early last Fall I took a violent cold which settled on my lungs, and I had chills alternately with fever, pain in my right side, breast and shoulder-blades, with a distressing cough and no expectoration. I kept getting worse, until I took to my bed. My appetite was gone, my bowels very irregular, fever and night sweats, attended with a distressing cough, which was very tight; my flesh was nearly all gone, and I was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick-bed was surrounded by kind and sympathizing neighbors, who had come to witness my departure from this world.

When all the rays of hope fled of my recovery, Dr. Conrad proposed to try SCHENCK'S PULMONIC SYRUP with a view of removing my cough, and relieving me of the tough phlegm, and as a means of affording temporary relief, remarking, at the same time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense suffering, procured some of the Pulmonic Syrup. I found it afforded me relief, and continued using it. I could feel its healing influence upon my lungs.

Dr. Schenck was sent for. He came and examined my lungs with his respirometer. He found one lung nearly gone, but the other was sound. He said he could generally cure when one lung was diseased. I do honestly think that if I had not commenced using Dr. Schenck's medicines, I could not have lived another week. Sometimes my breath appeared almost gone. I continued to improve under its use, and my friends were much gratified to witness my unexpected improvement; many of my neighbors came to look at me as one raised from the dead.

My cough now became loose, and I felt something break where I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spitbox full of matter every day, with hard lumps, like grains of something. My bowels now became regular and natural, and my appetite was so far improved that I could scarcely refrain from eating too much. My health improved, and I regained my strength.

I feel now as well as I ever did in my life, and can do as much work. I cannot run or go up steps as fast as I used to, for one lung is partially gone and contracted; but it seems to me, like a man that has lost an eye, the other is all the stronger. I feel now as though when I see a person with a bad cough, or look as though they had Consumption, that I must go to them and persuade them to go at once to Dr. Schenck, and get examined, for perhaps they were like me, and had one good lung, and can be cured. I am this day a living testimony of the great efficacy of Schenck's Pulmonic Syrup. For fear those that read this may think as I did—that all certificates are made up to deceive the poor afflicted—I subjoin the certificate of my physician, and also a number of well-known inhabitants of Tacony, who saw me at different times during my disease, and never expected to see me restored. I also append the certificate of the Brothers of Mystic Lodge, No. 270, I. O. of O. F., who kindly watched over me, and fully believed they would consign my remains to the tomb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the foregoing statement for the benefit of suffering mankind.

I reside at Tacony, and am well known by most of the people there, and will be gratified to have any person call upon me, and learn more particulars of the great virtues of this medicine.

JOHN C. GREEN.

The subscribers, members of the Mystic Lodge, No. 270, I. O. of O. F., of Holmesburgh, Penn., do hereby certify that we know John C. Green (who is a member in good standing in Lodge No. 270, I. O. of O. F.) was dangerously ill with a low pulmonary consumption last Winter, so that they gave him up to die; that he is now fully restored to perfect health, and they believe his recovery was produced by SCHENCK'S PULMONIC SYRUP.

We believe this certificate is correct in every particular.

The undersigned, residents of Tacony, eight miles above Philadelphia, being well acquainted with John C. Green, and the circumstances attending his case, feel impelled with a deep sense of imperative duty to make universally known to the public his entire recovery from very last stages of Pulmnnary Consumption. So entirely helpless was his condition—having been but a brief period since in that rapidly sinking and emaciated state—as to utterly preclude, in the opinion of his physician and friends, who watched by his bedside, all hopes of even a temporary recovery and restoration to his present robust health. Thus the careful use of your invaluable specific, the Pulmonic Syrup, makes it in our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medical skill or science can produce. It deserves to be imperishably recorded to your credit, and secures to you—the greatest discovery of an infallible cure for this hitherto remediless disease—a lasting monument and world-wide reputation in the healing art that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggle and suffering from a continual cough superadded to the other symptoms consequent upon or attending the last stages of a pulmonary disease; and moreover, it being so generally believed by his numerous friends that no human power could relieve or protract his life, much less restore him back again to his original health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery, by means of the exclusive use of your wonderful Syrup; and we should indeed rejoice if we could be made the humble instruments of relief and cure to others who may be so unfortunate as to be similarly afflicted.

Dr. J. H. Schenck, Philadelphia, Penn.:

DEAR SIR: I wish to add to your list of certificates my name. It may induce some sufferers to try your Seaweed Tonic and Mandrake Pills. I have been for several years complaining with a dull, heavy languid feeling, not sick enough to lay by, and yet hardly able to attend to my household duties. I had pains all over me, sick headache, low spirits, bowels costive, skin yellow, no appetite, belching up wind and throwing off bile continually. Nothing would digest but lay on my stomach, giving me pain and filling me full of wind. I was all this time taking medicine, but nothing seemed to reach my case until I commenced with your Seaweed Tonic and Mandrake Pills. I have taken five bottles of the tonic and three boxes of the pills, and feel like a new being. I live at No. 447 Harrison-av., Boston, and if any one will take the trouble to call on me I will explain more explicitly.

MRS. JANE HUNTER.

NEWS OF THE DAY.

GENERAL NEWS.

The news from Mexico is important. Monterey, a city of about fifteen thousand inhabitants, has been captured by the Liberals. The Liberals have a large force in front of Matamoras, which, they claim, is entirely at their mercy, and can be taken whenever they choose to make the attempt. It is said that they have offered all United States troops, who will join them in capturing the city, four hours of unrestrained plunder; but this is not credible. An Imperial transport has been captured on the North Rio Grande by Capt. SINCLAIR, of the Liberal forces, formerly a Lieutenant on the *Alabama*. The transport was handed over to the United States authorities at Brownsville, who placed a guard over her. A Liberal force was marching on Bagdad, which city was defended by a strong detachment of French troops.

We have interesting news from Texas. Provisional Governor HAMILTON is soon to issue an order for the election of delegates to a State Convention. It is said that orders have been received from Washington not to muster out any more troops, nor to sell any more government property until otherwise directed. The German inhabitants of the State are preparing to plant cotton extensively, and to raise it by their own labor. On the northern frontier, the Indians are exciting great alarm by their frequent incursions.

Hon. C. L. VALLANDIGHAM visited Eaton, Ohio, a few days ago, to transact some business. As soon as it became generally known that he was in the little town, a rumor became prevalent that he was there for the purpose of making a speech. It happens that the people of Eaton are very much opposed to Mr. VALLANDIGHAM personally, and the idea of his making a speech in their midst so exasperated a lot of the young men of the place, that at early candle-light they visited the place where he was stopping, and made a loud call for his appearance. Understanding that trouble was in store for him, Mr. VALLANDIGHAM made a hasty exit from the house, and pursued his retreat through fields and over fences in the direction of the depot, running at the top of his speed, followed by an angry and excited mob of boys and young men, one of whom struck him a severe blow, and knocked him to the ground, while he was getting on the train.

The effort to keep up the Fenian excitement is growing weak. Beside throwing a few brickbats at a private house in Toronto, the war has not been startlingly important. Mr. D'ARCY MCGEE took occasion to be fêted at Montreal the other night, and, of course, made a speech full of Celtic exuberance and characteristic compliments to the worked in general.

The investigation into the recent railroad disaster at Newark, N. J., was concluded yesterday, by the Coroner's jury finding a verdict of manslaughter against EDWARD O'BRIEN, the switch-tender. O'BRIEN was committed to await the action of the Grand Jury.

The United States Well, one of the famous institutions of oildom, suddenly ceased flowing on Nov. 9. Preparations are making to pump the water out, and hopes are entertained that the oily stream will soon be renewed.

A dispatch from Toronto says that the Fenian excitement of the last few days has subsided, and a general feeling of tranquility and confidence now prevails. All necessary precautions have been taken to prevent lawless depredations by the brotherhood.

The internal revenue of the government has averaged $800,000 a day thus far in the current week, making the total income of the National Treasury from this source, since July 1, $140,639,991.

LOCAL NEWS.

At a meeting of the Board of Supervisors yesterday, a report was presented by a minority of the Committee on Volunteering to whom was referred the bills of the State Census Enumerators. The report states that the committee appointed a suitable person to reënumerate the population in the first three districts of the First Ward, and the result was that he found a population of 8,156, while the State Census Enumerators returned only 5,651—or a difference of 2,505. The County Enumerators also found that many houses had not been visited by the State Enumerators at all. The report concludes by asking for instructions as to whether the committee should proceed in the work of investigation. A motion to adopt the report was lost. A motion to adopt the majority report was also lost. The board adjourned to Tuesday next.

Gen. GRANT and Mrs. GRANT yesterday rode out with Mr. LEONARD JEROME in his carriage and splendid four-in-hand team, accompanied by Maj.-Gen. DIX and Gen. CRAWFORD, visiting the Central Park. The handsome turnout of Mr. JEROME attracted considerable attention, and the presence of Lieut.-Gen. GRANT occasioned the usual crowds and enthusiasm. In the evening the General left the hotel in company with W. B. ASTOR and Hon. MOSES F. ODELL, and dined with the Union Club.

The preliminary examination of WILLIAM C. BARNEY and NELSON FABIAN, who are charged with attempting to defraud the Custom-house of the duty on three hundred barrels of whisky, was continued before Justice DOWLING yesterday, at the Tombs. The Justice ordered a new complaint to be drawn up, to include the name of Capt. CHAUNCEY with the two others. By mutual consent the question of jurisdiction was made a special subject for the next hearing. EDWIN B. MEEKS, a broker, gave some damaging testimony against the accused. The defending counsel declined cross-examining the witness until the *corpus delicti* of the prosecution was shown. On the refusal of the prosecution to present their case, the Justice adjourned the case to next Tuesday.

A motion was made yesterday, in the Supreme Court, Chambers, before Justice CLERKE, to transfer the case of manslaughter, arising out of the steamboat *Arrow* explosion, from the Court of General Sessions to the Court of Oyer and Terminer. Messrs. DAVID and TUNIS SMITH have been indicted as the owners of the steamer. The motion to transfer the case was granted; hence the trial will take place before a Justice of the Supreme Court within a short time.

Gen. JOSEPH E. JOHNSTON, who was at one time a leading General in the rebel army, is now stopping at the New-York Hotel. He is about engaging in the express business in the South, and visits New-York to perfect certain business arrangements. At times the *soi disant* General is surrounded by those who hold peculiar views on current topics, although he evidently aims at maintaining a strict reserve, accepting the present course of events as the natural result of peace and reconciliation.

An entirely new panel of jurors has been summoned for all the civil courts in the city. The list of those who have been notified will be called on Monday—in the Circuits at 10 A. M., and in the Superior, Common Pleas and Marine Courts, at 11. The Judges have decided to impose a fine of $25 upon all jurors, regularly summoned, that fail to answer to their names.

An election has been held for field officers for the Duryee Zouaves, National Guard, resulting in Mr. HARMON D. HULL being elected Colonel, Mr. GOULD H. THORPE Lieutenant-Colonel, and Mr. WM. FERGUSON Major. To-day the saddles and equipments for the First Cavalry, National Guard, will be issued to the men. These equipments were much needed, and Col. MINTURN can now make a proper and full parade on the 24th.

At the meeting of the Fire Commissioners yesterday, they adopted a code of regulations for the future government of the department. The board passed a series of bills for repairs, &c., amounting in the aggregate to $23,956 97. The Corporation of St. George's (Dr. TYNG's) Church, sent in a very complimentary letter to the board on the conduct of the firemen at the recent fire.

Some important advice in regard to the avoidance of the cholera has been issued by Dr. LEWIS A. SAYRE, Resident Physician, by direction of the Commissioners of Health. Temperance, cleanliness, pure air and the avoidance of mental excitement are, in Dr. SAYRE's opinion, the grand means by which attacks of the disease may be prevented and cured.

On Thursday afternoon, some gentlemen who were out shooting in the woods near Middle Village, Queens County, found the skeleton of a man in a clump of trees about one hundred feet from the public road. The clothes were still undecayed. In the cravat was twisted a short stick, leading to the supposition that deceased had been strangled.

The Union General Committee has issued a call for Primary Elections to be held on Tuesday evening, Nov. 21, at the usual headquarters in the several Wards, to choose delegates to the City, Aldermanic, Councilmanic and School Conventions. The official announcement reaches us too late for this morning's paper.

Dr. J. MCCUNE SMITH, a well-known colored physician, died in Williamsburgh, L. I., yesterday morning. Dr. SMITH studied medicine in Glasgow, where he graduated with full honors, and commenced practice here in 1840. The deceased was an active and useful member of society.

The examination of the members of the class who have made application for admission to the Bar, will be continued at 1 o'clock P. M., to-day, in the General Term room of the Supreme Court, New Court-house. The examiners have given notice that this will be their last meeting.

Dr. O. W. HOLMES lectured on "The Poetry of the War," last evening, before the Mercantile Library Association, to a large and much interested audience. The lecture was a classification and critical estimate of war poets and poetry, with illustrative quotations.

In the case of WILLIAM KEEFE, indicted for the murder of JOHN ABRAHAMS, the jury in the Court of General Sessions yesterday rendered a verdict of murder in the second degree.

The First Division National Guard have been ordered to parade on the 24th inst., Evacuation Day. They will be reviewed by Gov. FENTON and Staff at 1 P. M., and a salute will be fired in Union-square.

The Sound steamers which were detained in consequence of the fog, arrived at the city in the afternoon, and left again at a late hour last evening.

The Customs revenue of the government through this port thus far in the current week has averaged $495,871 a day.

The *Fung Shuey* arrived last night from New-Orleans, having left there on the 9th. We are under obligations to the Purser fo papers.

The arrivals of immigrants at this port since Jan. 1 have been 169,911, against 171,183 same time last year.

Rev. Dr. TYNG will perform service at Irving Hall to-morrow, at the usual hours.

Government Stocks were in demand and firm in prices yesterday. Gold 146⅝@147. Money 7 per cent. and easy, with some demand loans on Governments as low as 6 per cent. The Railway speculations left off dull.

Produce and Merchandise attracted less attention, as a rule, yesterday. Corn and Cotton were firmer. Pork, Flour and Wheat cheaper. Freights were moderately active.

The Trial of Jeff. Davis.

We find a paragraph in circulation, taken from a letter in the Macon *Telegraph*, and purporting to narrate a conversation between Mr. SEWARD and Mr. WEED, in relation to JEFF. DAVIS, in which Mr. SEWARD is reported to have said: "We cannot hang him without first convicting him, and I think *no impartial jury would do that.*" We must be permitted to doubt whether Mr. SEWARD ever said anything of the sort. We do not believe that he or any loyal man in the country can doubt that an *impartial* jury would convict Mr. DAVIS of treason without leaving their seats. Mr. SEWARD may have said that no jury drawn in the ordinary way would convict him, for there certainly are great practical difficulties surrounding the question of his trial.

We have before alluded to some of these difficulties, and further consideration has not lessened their magnitude. The question of the plan of trial is one of them. As will be recollected, an indictment has been found against him in the District of Columbia, but upon this the difficulty presented itself that DAVIS had not been personally present in the District, and could not therefore be tried and convicted there without overriding very clear and positive decisions of Chief-Justice MARSHALL, which any court would be slow to do. We presume these considerations have not been without influence upon the government, inasmuch as consultations have been held with Chief-Justice CHASE about holding a court in Virginia for the purpose of the trial. A trial in Virginia would doubtless be free from those difficulties which, in the present state of the law, surround the question of his constructive presence in the District of Columbia, or in any of the Northern States.

It seems, however, if public report is reliable, that Judge CHASE did not consider it consonant with the dignity of a court to sit within a district still held under martial law. We cannot but think, moreover, that if DAVIS were to be tried in Virginia at present, the trial would be a mere farce, which might as well be saved. We do not believe that any jury could be procured there in conformity to the ordinary rules of practice, all of whose members would be willing to take the law of the case as it should be laid down for them by the court, and applying that law to facts of which there is no doubt, bring in a verdict accordingly.

The fact is, the main difficulty in the case arises out of the present forms of law. There is no dispute about the facts; and there is no doubt, on the decisions of the courts, as to the law of the case. That levying war against the United States is treason, all agree; and that DAVIS has levied war against the United States would be no more certain after a verdict of a jury in his case than it is now. So far as the justice of the punishment is concerned, he might as well be hung without a trial as with. But the forms of law are substantial realities, serving a very high and good purpose, and should be scrupulously observed for the protection of innocent men, unjustly charged. Still it must always be understood that these forms should not be allowed to obstruct justice; and if it clearly appears that under certain circumstances such is their effect, they should be changed.

Now the main difficulty in this case arises out of the act of Congress which provides that a person accused of crime should be tried *only* in the district within which the crime was committed. We see no harm and much good in changing this law, so as to provide for certain cases,—for districts, for example, under martial law, or where an impartial jury cannot be found. Such a change in the existing law would enable the proper tribunals to take cognizance of the case of DAVIS, and relieve us from the apparent necessity of allowing an acknowledged criminal to escape, because his crime was too great to be met by the ordinary provisions of law.

The Disunion Party.

The *Anti-Slavery Standard*, in commenting upon the policy of the President, says:

> "His purpose, however, remains unchanged, and every desperate expedient he clutches at only shows how resolute he is to save his own scheme though he destroy the nation in the attempt.
>
> That purpose we believe may be stated in a sentence: *To bring back the States without Negro Suffrage.* To that the President makes everything else bend. We, therefore, on the other hand, demand that *everything shall bend to the purpose of keeping them out until Negro Suffrage is secured.*"

When the rebellion first broke out there was a party in the country, consisting mainly of the ultra Abolitionists, which was in favor of *letting the South go*, in order that the North might be relieved of all responsibility for the sin of slavery, and that Northern men might no longer be hampered by the South, in their control of the National Government. It was in pursuance of this policy that Mr. CHASE, in the first Cabinet meeting held after the attack on Fort Sumter, opposed raising any troops or making any war; and it was also in pursuance of the same policy that the *Tribune* took ground in favor of secession, provided a majority of the people of the Southern States wished to secede.

The patriotism of the nation overruled this policy and resolved upon war. It was then demanded by the same party that emancipation of the slaves should be at once proclaimed, partly as a means of carrying on the war, but mainly as an act of justice to the slave—and that the war should not cease until emancipation had been secured. Mr. LINCOLN's policy, which was to *save the Union*—using slavery or abolition as a means to the accomplishment of this end—was denounced with intense violence; but it nevertheless prevailed until, in due course of time, it became clear that, as a military weapon, emancipation was a necessity, and that public sentiment had become ripe for its employment. Mr. LINCOLN then issued his proclamation, and *that*, instead of the preservation of the Union, became the main object for which the extreme party referred to sustained the war.

Now that the war is over, the same party resist the restoration of the Union, or rather make it wholly subordinate in importance to the elevation to political power of the enfranchised slaves. As the *Standard* clearly puts the case, they mean to make "*everything bend* to the purpose of keeping the South out of the Union until negro suffrage is secured." Their policy has been steady and consistent. They have never swerved a hair's breadth from their leading purpose. They have made "every-thing *bend*" to the interest and elevation of the negro race. They would have consented to the division of the Union and the overthrow of the government, rather than the continuance of slavery. The war destroyed slavery, and now they not only consent, but *demand*, that the Union shall not be restored until negro suffrage has been secured in the Southern States.

We have nothing to say now about the question of negro suffrage. It may or may not be desirable. But those who place it above the Union, who were and are willing to destroy the Union and perpetuate the reign of confusion and violence in order to secure it, may be philanthropists within their sphere, but they are not good patriots, nor men who should be allowed to dictate the policy and decide the destiny of our country. Their immediate purpose is to force *Congress*; to thwart the President's efforts to restore the Union and reëstablish the authority of the constitution and government, unless negro suffrage is secured as a condition precedent. We do not believe that either fanaticism or party discipline, or both united, are strong enough in Congress to give them success.

THE CITY'S OPPORTUNITY.—It would almost seem as if we had a Providential warning of danger, and providential opportunity to escape it, in the recent approach of cholera to our doors and the intervening of Winter before the season in which it is likely to become epidemic. We have the Winter months in which to prepare for warding off its advent in the Spring. The experience during previous visitations and during the past Summer in many of the chief cities of Europe, show how much can be done by human agencies in keeping back or modifying its ravages; and by the same means we have learned how it is in man's power to create the conditions under which cholera flourishes with the most deadly luxuriance. Where people are huddled together in filthy tenements and amid noisome vapors—where moral and physical uncleanliness abound—where are filthy streets and cesspools, and bad drainage—there are the favorite haunts of cholera. This is a fixed fact, and in common with other journals, we have shown it again and again. We have again and again attempted to convince the people of the city of the necessity of remedying these fatal and threatening evils. There will be an opportunity, this Winter, for their demanding and securing such legislation as will effectually remove them. It is also in their power to defeat such legislation, so that they will find the sanitary condition of the city next Spring, no better than it has been or is now. It is a matter in which they would do well to be wise.

Movements of Gen. Grant.

Gen. GRANT, accompanied by Mrs. GRANT and their children, and also by Major-Gen. JOHN A. DIX, Miss DIX and Major-Gen. S. W. CRAWFORD, was driven out yesterday afternoon to the Central Park and Bloomingdale Road, by Mr. LEONARD JEROME, in his splendid four-in-hand open drag. The equipage, with its distinguished party, attracted much attention. Gen. GRANT was easily recognized and was everywhere greeted with enthusiasm. He returned at 6 o'clock to his hotel, where a committee of gentlemen, from the Union Club, were in waiting to escort him to a private dinner.

AMUSEMENTS.

ACADEMY OF MUSIC.—"Il Trovatore" was given last night in a more spirited manner than we have heard it for some time. The singers seemed to be in excellent voice, without exception, and the public acknowledged this fact by repeated encores. The ensemble also was very satisfactory. There will be no matinée to-day, but "Crispino e la Comare" will be given in Brooklyn. On Monday, "Don Giovanni" will be performed here, when Signor ROVERE will appear as *Leporello* for the first time. A crowded house may be fairly anticipated.

CRISPINO IN BROOKLYN.—To-night this popular work will be repeated in Brooklyn, with the cast which made it so entirely successful in this city.

IRVING HALL.—Mr. JEHIN PRUME, a nephew of the celebrated violinist and composer, PRUME, and a pupil of that gentleman, will give his first concert to-night at Irving Hall, on which occasion he will be assisted by several prominent artists, among whom we notice Mr. MILLS, the eminent pianist. Mr. PRUME, who is quite a young man; gave the other day a private entertainment at the rooms of Messrs. STEINWAY & SONS, and we are glad to hear highly favorable reports about his technical development, and hope that he will be liberally supported by the public.

MEMORIAL CONCERT TO THE LATE VINCENT W. WALLACE.—The friends and admirers of the late VINCENT W. WALLACE in this city held a meeting a few days ago, and resolved, with characteristic readiness, to give a grand instrumental and vocal concert at the Academy of Music, in honor of the eminent composer, and for the purpose of erecting an unassuming monument to him, and creating a fund for the benefit of his family. There will be another meeting of the gentlemen taking interest in this concert, and all persons wishing to aid the noble purpose are invited to be present this afternoon, at 3 o'clock, at Irving Hall. Mr. MARETZEK has been chosen Chairman, and the affair is intrusted to a sub-committee of gentlemen, whose experience warrants a decided success.

BENEFIT OF MR. JOHN BROUGHAM.—Winter Garden was thronged last night with the friends and admirers of Mr. BROUGHAM, who concludes to-night a most brilliant engagement at that theatre. The Friendly Sons of St. Patrick and the Knights of St. Patrick attended *en masse*, while Gen. MEADE, Gen. DIX, Hon. H. J. RAYMOND, Judge DALY and other prominent citizens assisted on the occasion. The play was a Broughamized version of "Dombey and Son," and passed off finely. After the curtain fell Mr. BROUGHAM was called out and made the following characteristic speech:

LADIES AND GENTLEMEN: I thank you heartily for your friendly greeting, a greeting which it is always my good fortune to receive at your hands, and which demands from me the most heartfelt recognition. The difficulty, however, lies in the varying of my expression so that you shall not hear, for the hundredth time, the thanks which my heart prompts and my tongue would fain utter. But this occasion seems to demand a more particular recognition. The members of two widely-known and influential organizations of my compatriots, the Knights and Friendly Sons of St. Patrick have done me the honor to remember this occasion and to attend the performance of the evening. Of this I am heartily proud and properly thankful. Of the Phœnicians, or Fenians [Laughter, and a voice, "Go it on the Fenians,"] or Irish, I have good reason to be proud. I can well remember, and so can we all, when the Irish people resident here were used but as electioneering tools, but now they are a distinct, a valued, an integral portion of this great and powerful and glorious country, great and powerful because it is again undivided. [Applause.] And although I cannot claim that the Irish are entirely free from fault, for indeed I have somewhere heard and am not disposed to contradict it, that they are reckless and disposed to row it occasionally, I have never yet heard that their faults were those of the heart—the heart which is always in the right place. [Applause.] We have all heard the story of the young emigrant who, with shilalah in hand and pack on back, jumped from the deck of his ship and, touching the dock, shouted "hurrah for Amerikay, and bedad its meself that's agin the government anyway." [Laughter.] Well, now it is not entirely strange that that poor fellow should have that feeling when it is remembered the years of burdensome oppression his forefathers endured, and the delight with which he found himself for the first time on ground where he could say what he liked and do as he pleased. For my own part, I am glad to know that my fellow-countrymen are generally found upon the side of the weak and oppressed, and I have always been ready to do battle in their cause with voice or pen, glad to be of any service in the cause which tended to elevate, ennoble and advance them. [Applause.] But I am aware that this is not the occasion nor the arena for the discussion of these topics, and I will bid you good night, again thanking you for your cordial reception and kind good wishes. [Applause.]

After the performance a number of Mr. BROUGHAM's friends waited on him at the New-York Hotel, accompanied by Dodworth's Band. A large crowd gathered in front of the hotel, and some of the people supposing the serenade was intended for Gen. JOHNSTON, who arrived there last night, attempted to create a disturbance, which was at once quelled when the object was explained. After sweet music from the band Mr. BROUGHAM was loudly called for, and in response said:

MY VERY KIND FRIENDS: I am very happy to be thus greeted to-night. But as I can hardly see you, I fear you will find it difficult to hear me. However as I am only an actor, a writer of moderately successful plays, it will make but little difference. If I were a successful General I might exhibit more wisdom by my reticence than many others do in a long speech. [Applause.] If I were a politician I might endeavor to draw you over to my views and gain not only popularity, but votes and preferment; as it is, I am sincerely glad for this manifestation of your regard, and in return, my good friends, I wish you health, prosperity, and a very fair good night. [Applause.]

Mr. BROUGHAM then retired with his friends.

NIBLO'S GARDEN.—At 2 o'clock this afternoon "Arrah na Pogue" will be given as a "matinée," with Mr. T. H. GLENNY and Miss AGNES PERRY as *Shaun* and *Arrah Meelish*. It will also be repeated in the evening.

WALLACK'S.—This evening, Mr. E. L. DAVENPORT takes his benefit. The play selected is "Love's Sacrifice," in which Mr. E. L. Davenport, Mr. John Gilbert, Mr. Charles Fisher, Mr. W. Holston, Miss Henriques and Miss Burke sustain the principal characters.

HIPPOTHEATRON.—At this unique establishment of horsemanship, in Fourteenth-street, a "matinée" will be held at 2:30, when Mr. JAMES ROBINSON, the celebrated bare-backed rider, will show his proficiency and skill in equestrianism.

SAM AND LAURA AT THE BROADWAY.—We are glad for the sake of those who delight in eccentric character acting, that *Sam* and *Laura* are to be kept on the boards for some time yet. To-day they appear at a matinée. In the entire history of New-York theatricals we scarcely remember any single character so signally successful as that of *Sam*, with Mr. CHANFRAU's interpretation. The play is weak and commonplace; with the exception of *Laura* there is no character support whatever, and yet the most decided success attends its every representation. Miss LOGAN's circle increases daily, her appearance and action being simply superb.

The Late Preston King.

Up to the present time the efforts made to recover the body of Mr. KING have been unsuccessful. By direction of Surveyor WAKEMAN, Capt. FAUNCE will take the revenue-cutter *Cuyahoga* and fire cannon over the spot where the suicide was committed in the hope that the concussion may bring the body to the surface. Boatmen are also engaged in dragging the river.

A young man who was seated near the door of the cabin of the ferry-boat when Mr. KING sprang overboard, observed him standing near the chains and looking into the water. Shortly afterward a hat rolled toward the cabin, and the children who saw Mr. KING jump overboard gave the alarm. The young man called to the engineer, and walking to the stern of the boat saw a pair of legs protruding above the water, which immediately sank.

The Troy *Times*, of Nov. 16, gives these facts about the late PRESTON KING:

"He was the editor and proprietor of the St. Lawrence *Republican* in 1830, and was for a time Postmaster at Ogdensburgh during VAN BUREN's administration. He was a delegate to the National Republican Convention at Baltimore in 1864, and was largely instrumental in procuring the nomination of ANDREW JOHNSON for the Vice-Presidency. There were few better judges of men than Mr. KING. To this fact is attributable in a great degree his large influence in conventions, in legislative bodies and official circles. Mr. KING was remarkable for obesity. Though of short stature—only five feet six inches—he weighed over two hundred and fifty pounds. He tried hard to reduce his flesh by a course of dieting, but failed. Latterly he took little exercise, but did a great deal of toilsome mind work. In 1847, when there was an open rupture between the Barnburners and Hunkers at the Democratic State Convention, Mr. KING was made chairman of the former and ROBERT H. MORRIS of the latter. The convention was double-headed, and had two Presidents. The Hunkers, however, outnumbered the Barnburners, got the control of the convention, threw overboard Mr. FLAGG, whose nomination was urged by the Barnburners, and laid on the table DUDLEY FIELD's corner-stone resolution against slavery extension. PRESTON KING, JAMES S. WADSWORTH, Mr. DOOLITTLE, (now United States Senator from Wisconsin,) JOHN VAN BUREN and others were the representative men of the Barnburners. They were beaten at Syracuse, but beat the Hunkers at the polls. Mr. KING, from that time forward, set his face against the pro-slavery element of the party, and lived to see the institution itself destroyed."

In another column the same paper says:

"The PRESTON KING of 1838 was a very different man from the PRESTON KING of 1865. In the Legislature of 1838, as the Democratic leader of the minority of twenty-eight in the Assembly, he was active, wiry, impulsive and factional. His course, on one occasion at least, came near bringing him under the discipline of the House. As he grew older he grew corpulent, and naturally relied more upon his pursuasive powers in social intercourse than efforts in debate. In Congress, his most prominent forensic display was on the Texas annexation question in 1845. In the Senate, he was not much inclined to exertion—speaking briefly when he spoke at all, generally contenting himself with voting on mature deliberation. This course of life led to an increased corpulency, and steadily unfitted him for the perplexing and onerous duties of the New-York Collectorship. On taking this office, he, as for some time previously, neglected the taking of any physical exercise, and devoted himself from morning to evening to his office duties, and gave his evenings up to conference with political friends who had favors to ask or personal purposes to promote. He ate, slept, did brain work, but did nothing for the physical system to enable it to stand the mental wear and tear. That he, under such circumstances, and predisposed to aberration of the mind, gave way, is not a matter of surprise. The terrible result is another lesson that nature will not suffer her laws to be violated with impunity. The mental machinery must sooner or later give way when the physical system which has to support it is rudely treated or neglected. The crack of CLAY's rifle was always ringing in the forests about Ashland during a Congressional recess. WEBSTER and his boats and fishing tackle were always to be seen among the sea islands off Marshfield whenever he could enjoy a respite from public and professional duties. Hence, these men were equal to any mental labor they might undertake, through more than half a century of the most exhausting public life."

THE CHOLERA.

How to Avoid It—Important Advice on the Subject.

The undersigned having been requested by the Commissioners of Health of the City of New-York, to publish such information as may be of use to the people at large, in view of the anticipated approach of an epidemic of cholera, would most earnestly call the attention of the public to the following statement of facts, and beg their careful consideration of the suggestions and advice:

Whatever differences of opinion may exist in regard to the cause and mode of propagation of the cholera, all now agree in their observations in this acknowledged fact, that its greatest ravages and most fearful mortality is among the filthy, the vicious and the destitute, and in fact it is almost confined to the imprudent, the intemperate and those who injure themselves by taking improper medicines.

Cleanliness, therefore, is of the first importance—both of your persons and of your houses—particularly your yards, sinks, privies and cesspools, where fresh chloride of lime should be daily sprinkled, and the adjoining walls and fences surrounding them repeatedly whitewashed.

Be careful that there is no stagnant water either in your cellars or yards, and if your basements are damp use fires in them frequently, to burn up the foul air and cause a more perfect ventilation.

Remove all garbage at least once a day, and twice if possible, and permit nothing to remain on the premises to undergo decomposition.

Keep your houses well ventilated.

Be temperate in all things, both in eating and drinking. Be temperate in exercise, in labor, both physical and mental. Keep good hours. Take proper food, in reasonable quantities, at proper times. Plainly cooked meats, with boiled rice, bread, and thoroughly cooked potatoes, should form the ordinary base of diet.

Abstain from all unripe fruits, and stale or partially decayed vegetables. But above all, avoid excess in intoxicating drinks of every kind.

Wear flannel next the skin, and at all times maintain the natural temperature of the body by a sufficient amount of clothing. Avoid all exposure to sudden changes of temperature, and if accidentally exposed to a storm, remove your wet boots and clothing as soon as possible.

The cholera is not the necessarily fatal disease which it is commonly believed to be, but is a disease that is both preventable and curable. It is always preceded by symptoms of languor and debility, with diarrhea, and in this stage is almost always curable; but if neglected at this period, and the diarrhea permitted to continue until collapse comes on, it is then almost always fatal.

At the very commencement of the disease go to bed, and stay there until you are well, with warm flannel around the body, warm bricks or bottles of hot water to the feet, if necessary, and if there is a tendency to vomit, apply a mustard plaster over the stomach. If you have not got a bed, lie down on the floor and keep yourself warm; but by all means retain the horizontal position all the time—not even getting up to attend to the evacuations, but use a bed-pan or other convenience for that purpose; and immediately send for some qualified physician for advice. But, above all things, abstain from taking any of the advertised nostrums that will flood the city, and swallow no medicine unless prescribed by a competent physician.

The Commissioners of Health are doing all in their power for the purification of the city and the protection of the people; but it must be evident to all that they cannot do everything, and would therefore respectfully call upon their fellow-citizens to coöperate with them in every possible way in their power.

Sources of filth and impurity may exist without the knowledge of the public authorities, and every citizen should feel the necessity of keeping a watchful supervision over his own premises; and when individual efforts are inadequate for their removal, they should call upon the board for aid and assistance.

Fear and *despondency* are the great sources of danger in all epidemics, but more especially in cholera than any other.

While, therefore, we would urge upon all our citizens the use of every prudential and precautionary measure, let them preserve a calm and composed state of mind, a cheerful heart, and dispel all fear—and by a confiding trust in an all-wise and merciful Providence, we can reasonably hope to escape this scourge, if we implicitly obey His laws.

LEWIS A. SAYRE, M. D.,
Resident Physician.

THE RAILROAD SMASH AT NEWARK.

Conclusion of the Coroner's Investigation.

THE JURY FIND A VERDICT AGAINST THE SWITCH-TENDER—HE IS COMMITTED FOR TRIAL.

The examination of the Coroner's jury into the causes which led to the late disaster on the New-Jersey Railroad, at Newark, was concluded yesterday. Upon the reassembling of the jury, several witnesses were examined, who testified that the Washington trains were run very fast where the accident occurred.

Dr. B. L. Dodd, who was called professionally to visit the wounded, testified as follows: Mr. Henry L. Gordon, when first seen by me, was lying upon the ground dead, near the west fence of the inclosure where the accident occurred; he was lying upon his back, his head being covered by a coat; I found that the whole left side of the skull had been crushed in and presented a flattened surface; blood was oozing from his ear; I also found that both legs had been torn from his body near the knees—one of which was lying near the body, and the other was found fastened near the shattered cars; I next saw a boy by the name of James E. Britt, of New-Brunswick, aged twelve years, who was mortally injured and in an insensible condition, lying in one of the cars; the muscles of the temporal region on the right side of the head were torn away, exposing the skull to a great extent; the right eye was also torn from its socket, and the nose and face crushed in to such an extent that the brain-matter was emitted; it was the general opinion of the physicians who saw the lad that he could not survive but a short time, *consequently his wounds were not dressed nor his body removed immediately*; but unexpected reaction took place and consciousness returned to such an extent that he was able to give his name and converse; his wounds were then dressed, and every medical aid given which was necessary; I would state that for the good of the patient it was quite as well that the wound should not have been closed, as compression of the brain is more likely to follow in consequence of the collection and blocking up of the discharges; consciousness only remained for a few hours, when a feeble pulse and other symptoms of a serious nature followed; he died about noon yesterday; it is my opinion that death resulted in the case of Henry L. Gordon and James E. Britt from injuries received in the accident to the Washington through train on the New-Jersey Railroad in this city, on the morning of Wednesday, the 15th inst.

VERDICT OF THE JURY.

The testimony was concluded at 11 o'clock A. M., and the jury retired for deliberation. After consulting two hours, the jury came in at 1 o'clock with a verdict "That the said HENRY L. GORDON came to his death on the 15th day of November, 1865, at the City of Newark, in the County of Essex, by an accident caused by the gross carelessness of EDWARD O'BRIEN, a switch-tender in the employ of the New-Jersey Railroad Company, at the Mulberry-street crossing, in said city, in leaving the switch open for the turntable, thus diverting the train from the main track, causing the destruction of cars in which the said HENRY L. GORDON was a passenger. And we do further find the said EDWARD O'BRIEN *guilty of manslaughter*, in causing the death of the aforesaid HENRY L. GORDON, through such neglect."

The following recommendation was attached to the verdict of the jury:

"And we do also recommend that, for the safety of the community, the Common Council shall further restrict the rate of speed at which all railroad trains shall run through the city."

O'BRIEN was brought into the room, and the verdict read to him. He manifested no emotion during the reading of the verdict. By advice of his counsel, Mayor STONE, of Rahway, he refused to make any statement. In a few moments O'BRIEN became unnerved, and wept like a child. During the afternoon Coroner SANDFORD committed him to Essex County Jail, to await the action of the Grand Jury.

On investigating the ordinances of the City of Newark, it was found that permission had been granted to the railroad company to run trains in the vicinity where the accident occurred at the rate of twenty miles an hour. As none of the witnesses testified that the train was running at a greater rate of speed than twenty miles, the jury did not feel justified in censuring the engineer in running at a rapid rate of speed.

The mystery attending the disappearance of the money from the body of Mr. GORDON has not yet been cleared up. Although suspicion attaches to several persons, the authorities do not feel justified in making any arrests.

Gen. Sickles Relieved.

The following order relieves Maj.-Gen. SICKLES from the command of this military district, and appoints his successor. We understand that Gen. SICKLES has been transferred to the command of an important department:

HEADQUARTERS DEPARTMENT OF THE EAST, }
NEW-YORK CITY, Nov. 9, 1865. }

GENERAL ORDERS, No. 74.—Pursuant to instructions from the War Department, Maj.-Gen. DANIEL E. SICKLES, United States Volunteers, is hereby relieved from the command of the District of Massachusetts, New-Hampshire and Vermont, and will obey such orders as he may have received.

Brig.-Gen. H. A. BARNUM, United States Volunteers, is assigned to the command of the above district, headquarters at Boston, Mass.

By command of Maj.-Gen. HOOKER.
D. T. VAN BUREN, Assistant Adjutant-General.

THE COUNTY CANVASSERS.—The Board of County Canvassers are still busily engaged in examining the election returns. Many and gross errors have been found, showing that in a number of instances the canvassers were ignorant of the primary rules of arithmetic. About fifty district returns have already been sent back for revision. The canvassers express the opinion that the returns of this election are more incorrect than those of any previous one.

TEMPERANCE.—The American Temperance Alliance hold their half-yearly meeting at Cooper Institute at 2 o'clock to-day. It is expected that some two or three thousand children will be present. Several of our city clergymen and other gentlemen will take part in the meeting.

FRESH READING.—A peep at the advertisement of the Mercantile Library, in another column, will show the reader where he can keep up with the best current light literature and heavy literature, at a cost almost nominal.

A DIFFERENT MAN.—It was JAMES W. BEEKMAN, Esq., and not BENJ. F., as stated, who welcomed Gen. GRANT on behalf of the Union League Club on Wednesday evening last.

From New-Orleans.

The steamship *Fung Shuey*, Capt. HILDRETH, arrived here last night, having left on the 9th. She brings mails, merchandise and passengers to CROMWELL & Co.

The steamer *Sheridan*, for Boston, and *Merrimac*, for New-York, crossed the bar the same time as the *Fung Shuey*. Nov. 13, at 3:30 P. M., off Carysfort Light, met steamer *Concordia*, from Boston to New-Orleans.

The *Fung Shuey* experienced heavy gales and strong head winds most of the passage.

LIST OF PASSENGERS.

E. M. Knox, Miss A. Wilson, Mrs. C. A. Beach and two children, Rev. A. D. McCoy, Geo. F. Manning, E. Fensterstock, Miss A. C. Canlon, James Pauna, G. S. Semple and lady, E. K. Wilson.

From Virginia.

WASHINGTON, Friday, Nov. 17.

A Virginia correspondent of the *National Intelligencer* says:

"Messrs. Custis, Chandler, Ridgway, Barbour, Davis and Hodge, elected to Congress from that State, will take the test oath without scruple." Of the other two, Messrs. STUART and CONRAD, he adds: "Whether able or not to take the oath, they present the best antecedents."

The same paper says Gen. DUFF GREEN is living in fair health in this city, and that it is DUFF C. GREEN, one of his sons, who, it was reported, recently died in Mobile, though of this fact his father, up to this time, had received no certain information.

From the Mississippi.

ST. LOUIS, Friday, Nov. 17.

The steamer *W. A. Moffitt* was burned at the lower end of the levee last night. She was valued at $60,000, and insured for $50,000.

The steamer *Ben Stickney*, which sunk at Island No. 8 on Wednesday, was valued at $150,000, and not insured.

Gov. FLETCHER, of Missouri, has appointed the 7th of December as a day of Thanksgiving.

Fire at New-Brunswick.

NEW-BRUNSWICK, N. J., Friday, Nov. 17.

The large outbuildings of Mr. S. B. HOFFMAN, of New-York, filled with hay and grain, opposite this city, was destroyed by fire this evening. The fire is supposed to have been the work of an incendiary.

The Tunisian Embassy.

BOSTON, Friday, Nov. 17.

A Difficulty.

Persons often complain because they have to wait so long before they can be accommodated at our office. We give each patient a numbered ticket on entering, so that we may serve them in the order of arrival. This is the only fair way, and the best we can do. To avoid waiting, patients should call or write and secure an appointment, and they will be accommodated as near as possible to the time named. Even if no appointment is made, patients seldom have to wait more than half an hour.

We have given the gas, up to this writing, to *seven thousand seven hundred and eighty-nine patients*, all of whom have written their names on our certificate scroll with their own hands, and within five minutes after having their teeth out. Not one of all this vast number has complained of injury from the gas. We *can* draw teeth without pain.

I propose to give an "exhibition" of the gas (as per advertisement) at the Cooper Institute, on Wednesday evening next, 22d inst., and extract a few teeth at the close before the audience.

G. Q. COLTON,
Office No. 19 Cooper Institute.

DYSPEPSIA AND INDIGESTION.—These great scourges of our people cannot be too well understood, or the means of averting or curing them too highly appreciated. The person who discovers any means of cure or alleviation, confers a benefit upon his fellows, and is deserving of honor. This desirable consummation has been achieved, and not only may dyspepsia be cured, but it may be prevented by the use of *Hoofland's German Bitters*, which medicine is spoken of in terms of the highest commendation by thousands who have tested its efficacy. For sale by all druggists. Not alcoholic.—*Philadelphia Exchange.*

IMPORTANT TO THE PUBLIC!
DR. VON EISENBERG'S
ÆSTHETICO-NEURALGICON,
THE CELEBRATED APPARATUS.

From the New-York Express.

So many able and earnest men are devoting themselves to medical investigation, that it would be strange if new discoveries were not made. Among the most brillant of these—we may indeed say the most brilliant of all—is that of Dr. VON EISENBERG, in regard to the *Etherealization of Medicines*; we may properly call it the "Spiritualization," since the Latin *Spiritus*, whence comes our word "Spiritual," signifies primarily, simply 'the air."

Many of the most important and vital organs of the human frame cannot be reached by medicines in a solid or even in a liquid form. Thus the *lungs* are shut up in a bony chest to which access can be had only through the wind-pipe, the opening of which is closed by a valve, called the "epiglottis," so sensitive and so delicately constructed, that it will not allow the passage, except by main force, of the most minute crumb, or the smallest drop of liquid. Every person who has "swallowed the wrong way" the smallest substance, whether of liquid or solid, knows the feeling of strangulation thereby occasioned. A man cannot, if he would, volunrtarily swallow any liquid or solid into the lungs, or the passage leading to them. Herein lies the true reason why Consumption has been so incurable.

As to the entire apparatus, we have no hesitation in saying that we regard it as a wonderful invention—one that, were it not so costly, we have little doubt would be adopted by every hospital and medical college in the country. We are satisfied it would well repay, even if he had to journey all the way from Europe, the scientific man to see and examine it. It is a marvel of mechanical complexity, and yet, when its multiform uses are considered, of extreme simplicity and great beauty. That it will in every respect fulfill the expectations of the inventor, we have every reason to believe. It has been constructed with an accurate knowledge of its ultimate uses. One so experienced in the specialities for which it is particularly intended as is Dr. Von Eisenberg, and for which he has long felt the necessity in his practice, could make no failure. With it he is enabled to surmount obstacles that were hitherto deemed all but impossible to control. He can now approach with certainty and diagnose thoroughly every disease that, in the course of his extended practice, he aims to master. To those, therefore, who are in any way afflicted with loss of sight or hearing, with catarrh, bronchitis, chest or lung diseases, we earnestly suggest a visit to the consulting apartments of Dr. VON EISENBERG. There he will be speedily made to know the possibility of a cure in even complicated cases. We hereto observe that the apparatus is intended also to bring the etherealized medicines into direct action upon the nerves. The nervous system is the source of many diseases. All physicians admit this, and all profess at least to be able to apply a remedy. The Allopathic, Homeopathic and Hydropathic, by prescribing opiates, anodynes, &c., may, and do, alleviate the pain arising from impaired or diseased nerves; but this does not restore the nerve, it is only temporary relief—a relief, too, to some one nerve at the expense of the entire system. The Æsthetico-Neuralgicon of Dr. Von Eisenberg not merely allays the irritation, but restores the nerve to its normal condition. The Doctor's theory is, that each nerve has a specific office, and has its own peculiar susceptibility. Thus, for example, the nerve of vision is insensible to touch; and, on the other hand, one nerve of touch is insensible to light, and so on through the whole system.

From the Journal of Commerce.

We think it is but just to Dr. Von Eisenberg to call public attention to him. There are hundreds in the community suffering from catarrh, if not actually praying for death, who are ready to accept of anything that promises to relieve them from their distresses. To such we would say, trifle not with inexperienced men, but consult, without unnecessary delay, Dr. Von Eisenberg, who, at least, has the honesty to assure his patients whether it is in his power to make them whole or not.

HEARING RESTORED BY A SINGLE APPLICATION OF THE ÆSTHETICO-NEURALGICON.
READ! READ!

NEW-YORK, May 4, 1865.

I have been induced, by the great number of certificates continually published in favor of Dr. Von Eisenberg's skill, to apply to him for advice concerning my deafness of many years' standing. I placed myself under his care, and to my utmost delight he made me hear perfectly well by a single painless application of Dr. Von Eisenberg's "Æsthetico-Neuralgicon." I have great pleasure in being able to state that his skill in restoring hearing surpasses anything I ever saw or heard of. His attention to the patient is highly commendable.

JOHN WAKELY, No. 104 Monroe-st.

MIRACULOUS CURE OF THE CHRONIC CATARRH, ASSUMING THE FORM OF CONSUMPTION.

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, and a weight over my eyes, which were weak, watery, and very painful. My nostrils were continually obstructed with a pouring of fluid. I had frequent sneezing, hoarseness of my voice, generally attended with spitting of blood. I have been treated by many eminent physicians without success. Recently the Catarrh became so offensive that I could not go into society. Hearing of DR. VON EISENBERG'S new invention, I thought I would apply to him as a last resource. Having been satisfied with his diagnosis, I submitted to his treatment, and have every reason to be abundantly satisfied, as I am completely cured, and my health so much renovated that I feel better than I felt for the last fifteen years. It is a blessing that experience gives the Doctor the power to restore such a shattered constitution to perfect vigor. I now feel very happy to be able to give this testimonial in favor of Dr. Von Eisenberg's inimitable skill.

RESTORATION OF SIGHT.

I, Lawrence Grenna, No. 266 East 36th-st., New-York City, have been suffering from blindness of the left eye for a considerable period. The eye was continually in a state of great inflammation, from which the good eye became affected, and, indeed, my general health was greatly injured by it. Hearing of Dr. Von Eisenbergs' great reputation, and as every one said mine was a hopeless case, I called on the Doctor, who, after examining me, undertook my case, and within a fortnight I found myself almost completely cured. It is now a month since I placed myself under Dr. Von Eisenberg's treatment, and I am happy to be able to state that the inflammation is entirely gone, so that I see perfectly with both eyes, added to which I am in good health—a blessing I have not enjoyed since I was blind. I do conscientiously and gratefully swear to the above statement, in a court of justice, at the City Hall of the City of New-York, the 10th day of October, 1864.

LAWRENCE GRENNA.

Sworn before me this 10th day of October, 1864.

MR. AMBROSE'S LETTERS
ON THE REBELLION. By Hon. JOHN P. KENNEDY.
1 vol. 16mo., cloth, price $1 50; 1 vol. 16mo., paper, price $1.

Few names on the patriotic list will be more heartily recognized than that of Hon. John P. Kennedy, of Baltimore. His popularity both in literature and in official and social life, founded as it is on the most sterling as well as agreeable qualities, gives a weight and attraction to all he has written on the rebellion.

During the progress of the war a series of very logical and seasonable papers appeared from his pen, in a leading journal, under the title of "Letters of Mr. Ambrose," and, although the question they discuss has been practically settled, enough and more than enough of the vile sophistry of State rights, &c., as opposed to Federal authority and unity, prevails, to make the sound arguments, the clear statements, and the eloquent logic of this little volume useful now and valuable always.—*Boston Transcript.*

The object of this unique and novel work is to bring the Fine Arts to the aid of the great spiritual truth of religion, and by presenting them to the eye in a picturesque and attractive shape, to impress them more deeply on the mind. The illustrations comprise a series of

RICHLY ILLUMINATED PLATES,
EMBLAZONED IN GOLD AND COLORS,
In the style of the Ancient Missal Decorations, improved and chastened by the refinements of Modern Art.

In them the Apostolic emblems are portrayed, and their sacred significance is indicated, each being accompanied by an appropriate Poem, and surrounded by floral and arabesque borders, all appropriately referring to the Divine injunctions of the Sacred Text. In one elegant quarto volume, massively bound in Turkey morocco, beveled, antique, richly gilt sides and edges. Price $20. In cloth, beveled, and extra gilt, $15. Put up in a neat box.

JUST READY:

THE BOOK OF RUBIES.

A COLLECTION OF THE MOST NOTABLE LOVE POEMS IN THE ENGLISH LANGUAGE. In one vol. crown 8vo, printed by Alvord, in two colors, on superfine extra calendered tinted paper, bound in extra illuminated cloth, full gilt, $7; in Turkey extra or antique, $10. Each style put up in a box.

The editor of this work announces his aims to be, beside grouping together the finest love poems of our tongue, to present a view of the progress of the class of poetry treated, from the earliest dates to the present day.

There is no love poem of note omitted, and with all those gems long known to the public, there are numerous others hitherto overlooked because of the demerits of the authors in other fields of literary labor, or because they were the single songs of those who never sang well but once. Arrayed with reference to the dates at which the authors flourished, the poems furnish a fair view of the progress of erotic poetry, and allow a comparison of styles and merit, not to be otherwise attained, except by laborious and not over-profitable reading. Every shade of human passion, except the sensual, is illustrated; and it confers credit on the editor to see how happily pure is the result of his labors.

It is believed that this work will be found the most complete and best arranged in its contents, as it is the most elegant in mechanical execution. The author has brought to light the most precious ores he could find in his explorations in the wealthy mines of amatory poetry, and the result is a work which sparkles with love thoughts of all ages.

LIFE AND LETTERS OF REV. F. W. ROBERTSON.
2 vols. 12mo. $4.

This is one of the most interesting biographies ever published. Mr. Robertson became known and endeared to the American public by his Sermons and Lectures, which have had a popularity rarely won by books of that class; and the history of his life will be generally welcomed.

"The character it exhibits is one of the most striking of this age, and the work it records will have lasting effect on posterity......There is something here for all kinds of readers, but the higher a man's mind and the more general his sympathies, the keener will be his interest in the Life of Robertson."—*London Athenæum.*

PROPOSALS

OFFICE DEPOT COMMISSARY OF SUBSISTENCE, PHILADELPHIA, Nov. 16, 1865.

SALE OF HARD BREAD.

SEALED PROPOSALS, in duplicate, will be received at this office, until 12, (noon,) TUESDAY, Nov. 28, 1865, for the purchase of 20,000 boxes, or less, of surplus hard bread, now on hand at this depot.

This bread is of excellent quality, and in good order, never having been shipped, nor in any way exposed to the weather. It is ready for immediate delivery and use. The boxes contain fifty (50) pounds each, and are well coopered.

The sale is worthy the attention of merchants, shippers, millers, and others using pilot bread, as there can be no better article put on the market.

The bread can be examined at any time, at the United States Commissary Storehouse, TENTH-ST., north of Chestnut-st. No bids will be received or less than twenty (20) boxes—one thousand (1,000) pounds. Proposals must state the number of pounds, and the price per pound bid for.

The government reserves the right to reject all bids deemed too low.

Successful bidders will be required to remove the bread within ten (10) days from date of acceptance.

Bidders not present will be immediately notified if their bids are accepted. Terms cash, in government funds, upon delivery of the bread.

Proposals to be addressed to Capt. G. BOLTON NEWTON, Commissary of Subsistence, Philadelphia, Box No. 2,036.

By order of Brevet Brig.-Gen. C. L. Kilburn, A. C. G. S., and Chief Commissary Military Division Atlantic.
G. BOLTON NEWTON,
Captain and C. S. V.

HARD BREAD AND EXTRACT OF COFFEE.

OFFICE DEPOT COMMISSARY OF SUBSISTENCE, WASHINGTON, D. C., Nov. 13, 1865.

Sealed proposals, *in duplicate*, will be received at this office on WEDNESDAYS and SATURDAYS of each week, for all the surplus HARD BREAD the government has for disposal in this locality, and also about 2,000 gallons of Tilden's Extract of Coffee.

The bread is in boxes of fifty pounds each, and the coffee in tin cans of one gallon each (eight cans in a box.) These articles can be seen at the Subsistence Depot in Alexandria, Va.

All purchases will be placed on transports at the government wharf in that city, free of expense to the purchaser.

No proposals received for less than (20 boxes) 1,000 pounds of bread and eight cans of coffee.

Bids from parties who have failed to comply with contracts will not be received.

Payment required on the notification of acceptance of the bid, in government funds.

If the articles are not all disposed of before THURSDAY, the 30th inst., they will be offered at public auction.
G. BELL, Major and C. S., U. S. A.

GOVERNMENT SALE OF CHOICE WHISKY.

OFFICE DEPOT COMMISSARY OF SUBSISTENCE, WASHINGTON, D. C., Nov. 14, 1865.

Sealed proposals, in duplicate, of the form furnished by the undersigned, will be received at this office until 12 o'clock M., on TUESDAY, the 21st day of November, 1865, for the sale of

1,596 BARRELS OF WHISKY.

The whisky offered for sale was selected with care, and is of the first quality, especially the Rye and Bourbon Whisky, which are equal, if not superior, to any whiskies now in the market.

Proposals may be made for any number of barrels, not less than five of each lot.

Lot No. 1 consists of ninety-eight barrels of Rye Whisky, containing about three thousand nine hundred gallons.

Lot No. 2 consists of five hundred and thirteen barrels of Bourbon Whisky, containing about one thousand six hundred gallons; and

Lot No. 3 consists of nine hundred and eighty-five barrels of Rectified Whisky, containing about thirty-nine thousand gallons.

The Whisky will be regauged before the delivery, and sold by the "proof gallon." It may be examined at the Subsistence Depot, Alexandria, Va., or samples can be seen and proposals obtained from any of the following officers:

Brevet Lieut.-Col. E. D. Brigham, Capt. and C. S., U. S. A., Boston, Mass.

Brevet Brig.-Gen. H. F. Clarke, A. D. C. and A. C. G. S., U. S. A., New-York City.

Brevet Brig.-Gen. C. L. Kilburn, A. C. G. S., U. S. A., Philadelphia, Penn.

Brevet Brig.-Gen. T. Wilson, V. S. and Brevet Lieut.-Col., Capt. and C. S., U. S. A., Baltimore, Md.

Or at this office.

Payment in government funds, about 50 per cent. of which will be required on the acceptance of the bid, and the remainder as soon as the reguaging is completed, and before the delivery commences.

No bid received from parties who have failed to comply with their contracts.

Bidders are requested to be present at the opening of their bids.

All purchases will be loaded at the government wharves in Alexandria, Va., free of expense to the purchaser.

The usual reservation by the government in regard to bids will be observed.
G. BELL, Major and C. S., U. S. A.

PROPOSALS FOR FORAGE AND STRAW.

QUARTERMASTER'S OFFICE, NO. 17 STATE-ST., NEW-YORK, Oct. 2, 1865.

Proposals are invited by the undersigned for the delivery of good, merchantable TIMOTHY HAY, on board of vessels at such wharf in New-York harbor as may be designated.

The hay and straw must be securely baled, and weigh two thousand (2,000) pounds per ton exclusive of wood.

Proposals must state plainly the quantity, price, and time of delivery.

The hay and straw will be inspected by a government inspector, and weighed before being shipped.

Proposals will also be received to deliver HAY and STRAW at Washington, D. C., Richmond, Va., and Hilton Head, S. C., subject to the above requirements.

Bids will be accepted from time to time to meet the requirements of the government.

Payments to be made on delivery, or as soon [illegible] as funds for the purpose shall be received.
STEWART VAN VLIET,
Brevet Brigadier-General and Quartermaster.

OFFICE OF THE STREET COMMISSIONER, NO. 237 BROADWAY, NEW-YORK.

TO CONTRACTORS.—PROPOSALS INclosed in a sealed envelope, indorsed with the title of the work, and with the name of the bidder written thereon, will be received at this office until Monday, November 27, 1865, at 11 o'clock A. M.

MEDICAL.

THOUSANDS ARE TIMELY SAVED BY Dr. KENNEDY'S skillful and improved treatment.—Private diseases cured in the shortest possible time by Dr. KENNEDY & CO., No. 195 Elm-st., New-York, without the use of mercury, loss of time or change of diet. Dr. KENNEDY, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. KENNEDY, No. 195 Elm-st. Call, send or write.

A. M. MAURICEAU, PROFESSOR OF midwifery and operating surgeon, having over thirty years' successful practice in this city, guarantees a safe and immediate removal of all special irregularities and obstructions in females, without pain or exposure, with or without medicine. Can be consulted with the utmost confidence at his private office, No. 129 Liberty-st., New-York, or by mail.

Dr. A. M. Mauriceau is the author of "The Married Woman's Private Medical Companion," strictly intended for those whose health and circumstances forbid a too rapid increase of family; a perusal of which will convince every lady of his thorough knowledge of her complaints. Every lady who has it is secure from danger and imposition. Price $1. Sold at his office No. 129 Liberty-st., or sent by mail, by addressing Box No. 1,224 New-York City. Sold also at No. 1 Vesey-st., New-York; in Boston, No. 15 Court-st.

MANHOOD AND THE VIGOR OF YOUTH regained in three days by Dr. POWERS' ESSENCE OF LIFE. This wonderful agent restores manhood to the most shattered constitutions, radically curing Seminal Weakness, Sexual Debility, and Impediments to Marriage generally; Nervousness, Mental and Physical Incapacity, resulting from self-abuse, &c. The time required to cure the most inveterate case is one week. Failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. Young man, are you subject to that soul and body destroying disease, secret habits? Dr. POWERS' Invigorating Essence is a never-failing cure. Sold by WALTER POWERS, M. D. No. 195 Elm-st. New-York.

ADVICE TO MARRIED LADIES.—MADAME RESTELL, Professor of Midwifery, having over thirty years' successful practice in this city, guarantees a safe and immediate removal of all special irregularities and obstructions in females, with or without medicine, at one interview, or by mail. Can be consulted with the utmost confidence at No. 162 Chambers-st. Her infallible French Female Pills, No. 1, price $1, or No. 2, which are four degrees stronger than No. 1, and can never fail, are safe and healthy, price $5, can be sent by mail. Also sold at the druggist's, No. 152 Greenwich-st., near Liberty-st. Madame RESTELL deems it her duty to caution ladies against imitators, who not only deprive them of their means, but their health.

A PHYSIOLOGICAL VIEW OF MARRIAGE —Containing nearly 300 pages and 150 fine plates and engravings of the anatomy of the sexual organs, in a state of health and disease, with a treatise on self-abuse, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser of the married and those contemplating marriage, who entertain doubts of their physical condition. Sent, free of postage, to any address on receipt of 25 cents, in specie or postage stamps. Address Dr. LA CROIX, No. 31 Maiden-lane, Albany, N. Y.

DR. WEST, PHYSICIAN AND SURGEON—Office No. 545 Broadway, New-York, desires to inform those seeking medical advice, that he devotes his time specially to the treatment of diseases of a private nature; the various forms of which he from long practical experience is well acquainted with, enabling him to guarantee a cure in all cases. Particular attention paid to diseases arising from self-abuse or excesses, nervous debility, &c. Office hours from 8 A. M. to 9 P. M.

THE AMERICAN INSTITUTE FOR FEMALES, No. 7 Beach-st., New-York, conducted by Dr. DURANT & CO., is fitted up elegantly, expressly for the convenience of ladies requiring nursing during confinement, and the utmost attention is paid to the comfort and welfare of the patient. The strictest confidence always observed. Competent nurses in constant attendance.

DR. POWERS' PERIODICAL DROP are designed for both married and single ladies, and are the very best thing known for the purpose, as they will bring on the monthly sickness in case of obstruction from any cause, and after all other remedies of the kind have been tried in vain. Expressly for obstinate cases. Warranted as represented in every respect, or the price will be refunded. Beware of imitations! Purchased directly of Dr. POWERS, No. 195 Elm-st., New-York.

DR. DURANT OFFERS, WITH CONFIDENCE to the ladies, his celebrated remedy for the removal of all irregularities or obstructions; relieves after all other so-called remedies have failed. Ladies, try it. Office No. 7 Beach-st., New-York.

DR. LARMONT'S PARIS, LONDON AND New-York "Medical Adviser and Marriage Guide." New edition. 400 pages. Price $1 50. Office, 173 Broadway. Treatment from 10 to 5. Sold by E. WARNER, No. 1 Vesey-st.

DR. HUNTER'S BOTANIC CORDIAL restores the vigor of youth in four days. Gives health, strength and vigor to the most shattered system. $5 a bottle. No. 3 Division-st., New-York, the only place.

DR. DURANT INSURES THE LADIES a speedy relief from all special irregularities and obstructions at one interview. No. 7 Beach-st., New-York.

GENTLEMEN CAN, WITH CONFIDENCE consult Dr. LEWIS, at his old-established office, No. 7 Beach-st., three doors from West Broadway, New-York

MANY THOUSANDS ARE RUINED BEYOND REDEMPTION in this life by not calling on Dr. HUNTER sooner or later. He can cure the worst cases of secret disease in a shorter time than any other physician, or no pay taken. Skeptics and doubters will please call and read lists of reliable certificates of cures made within the last thirty years of almost hopeless cases, that had the benefit of dozens of our most eminent physicians and surgeons. Dr. Hunter is in constant attendance from 8 in the morning till 9 at night, at his old office, No. 3 Division-st., New-York City, since 1834. Charges moderate, and a cure guaranteed. Separate rooms, so that the patient sees no one but the Doctor himself. His wonderful medical discovery, DR. HUNTER'S RED DROP, cures private diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, and possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless his remedy is used. This is what he claims for it, and what no other will accomplish. $1 per vial. Book, 50 pages, gratis, on nervous debility, causes of impotency, marasmus, &c.

MUSICAL.

CHICKERING & SONS,

MANUFACTURERS OF GRAND, SQUARE AND UPRIGHT PIANO-FORTES, NO. 652 BROADWAY.—The superiority of these instruments has of late been amply demonstrated by the voluntary testimony of the foremost artists of the day, who claim for them excellencies of tone and workmanship hitherto unobtained by any other makers.

Mr. GOTTSCHALK'S constant use of the NEW SCALE CHICKERING GRAND PIANO-FORTES has severely test their musical qualities, and resulted in establishing the justice of the very flattering estimation in which they are held.

Messrs. CHICKERING & SONS are sole agents for the celebrated Alexandre Organs for the United States.

THE MASON & HAMLIN CABINET ORGANS.—FORTY-FIVE GOLD or SILVER MEDALS or OTHER HIGHEST PREMIUMS have been awarded M. & H. within a few years, and TEN within the last four weeks, for THE BEST INSTRUMENTS OF THIS GENERAL CLASS.

Printed testimony is presented in their circulars from more than two hundred and fifty of the most eminent organists and musicians in the country that THE MASON & HAMLIN CABINET ORGANS ARE UNEQUALED. Prices, $110 to $600. Warerooms No. 596 Broadway, New-York.

STEINWAY & SONS'

GRAND, SQUARE AND UPRIGHT PIANO-FORTES,

are now acknowledged the best instruments in America as well as in Europe, having taken thirty-two First Premiums, Gold and Silver Medals, at the principal fairs held in this country within the last ten years, and in addition thereto they were awarded a First Prize Medal at the Great International Exhibition in London, 1862, in competition with two hundred and sixty-nine pianos, from all parts of the world.

Among the many and most valuable improvements introduced by Messrs. STEINWAY & SONS in their Piano-fortes,

THE SPECIAL ATTENTION OF PURCHASERS.
is directed to their
PATENT AGRAFFE ARRANGEMENT.

The value and importance of this invention having been practically tested, in all their grands and highest-price square Piano-fortes, and admitted to be the greatest improvement of modern times, they now announce that they have determined to introduce their "Patent Agraffe Arrangement" in every Piano-forte manufactured by them, without increase of cost to the purchaser, in order that all their patrons may reap the full advantage of this great improvement.

Extract from the testimonial of the most distinguished Artists to STEINWAY & SONS:

Among the chief points of the uniform excellence of the STEINWAY Pianos are:

Greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness, and perfect evenness throughout the entire scale, and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

We therefore consider the STEINWAY Pianos in all respects the best instruments made in this country or in Europe, use them solely and exclusively ourselves in public or private, and recommend them invariably to our friends and the public.

FRIDAY, Nov. 17—P. M.

The price of Gold is ⅛ to ¼ per cent. cheaper than on Thursday. There is no large amount of business doing in the Gold Room, although the Customs demand continues active, say about half a million per day. Since the introduction of the Gold Certificates, the Importers have increased facilities for arranging their payments for Customs, and the handling of Gold in bags is already sensibly reduced. When the Government is a seller of Gold, the amount is taken out in Certificates, and these pass either directly to the Custom-house or to the Bankers in Foreign Exchange, without the removal of the Gold itself, until wanted for export to Europe or transmission to the interior. The demand from the South has nearly ceased, and the only export movement, this week, is in the California Gold bars received by the last packet from Aspinwall. The steamers to-morrow will take out $400,000 of these bars, which will about clear the market.

The Gold Certificates now going into the Custom-house for duties, are at once canceled by stamping the date of receipt at the port of New-York, and in this form returned, the same afternoon, to the Treasury Office, where the cancelation is made complete. No corresponding numbers are to be re-issued on new Certificates, and the Cashier of the Custom-house registers the date on which each number passes through his hands. It is the purpose of the Government to cancel all large Certificates, $500 and upward, on payment, so that no second use is made of the same paper. Another rule of the Gold Room is, that no Certificate payable to order, having a second indorsement, will be esteemed a good delivery.

Exchange on London is 108¾@108⅞, and on Paris 5 francs 13¾ centimes to the dollar, for 60-day bills, and 110 on London and f.5.13¾@f.5.12½ on Paris, sight bills, all for Gold. The business for to-morrow's mails is not so active as for the *Java* on Wednesday. A prominent banking house was offering engagements for the Boston mail of Tuesday next at 108⅞ on London, on the calculation of large arrivals of Exchange from New-Orleans and Mobile by the next coast steamers.

Money was lent by some of the Banks and Bankers to the large dealers in Government Securities to-day at 6 ℘ cent., subject to call, but the rule to Brokers continues 7 ℘ cent., and on Merchant paper, 7 ℘ cent. at Bank, and 7@9 ℘ cent. outside, according to date and credit of signatures.

At the Stock Exchange and among the dealers on Wall-street, there was a further improvement in United States Stocks and 7.30 Currency Notes. The dealings are on the increase, and the outside demand runs ahead of the supplies coming on the market. The old 5-20s are 102@102¼ ℘ cent. The new 5-20s 100@100¼ ℘ cent., and the 10-40 years 5 ℘ cents 91⅜@91½ ℘ cent. The Border State Bonds are higher for Tennessees, owing to the proposal of the Legislature to fund the arrears of interest, while Missouris are dull and somewhat neglected. The Railway speculation tends to firmness, rather than decided buoyancy. The speculators turn their contracts on moderate profits, and there is no disposition to accept long options, and not much to offer them. The firmness in Northwest Common, Rock Island, Pittsburgh and Michigan Southern, is most prominent. The fluctuations in Erie for a day or two, have been between 93@91⅞@92 ℘ cent.

At 4 o'clock the following quotations were made as compared with Thursday afternoon. The business was dull at the Open Board, without much change in prices, for the Railways. Governments left off firm on the Street. Gold, 146⅞@147.

FAMILY MARKETING.

Current Retail Prices at the Principa Markets.

FRIDAY, Nov. 17, 1865.

The following table, revised weekly, will be found to contain correct quotations of the retail prices of all the principal articles of food, &c., at Washington and Fulton Markets, and is given as a guide to purchasers there, or from outside dealers. The prices of inferior goods are not quoted, our outside figures being for the best qualities of their kind in the market.

We quote to-day, for meats, poultry and fish, prices considerably lower than last week. This decline is partly attributable to the warm weather, and partly to the increased supply of poultry, which now comes in abundantly. The market is evidently tending downward, and the impression is pretty general amongst the dealers, that there must be a tumble, and soon, from the still exorbitant prices.

CONSTITUTION

LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

SCROFULA,

STRUMA, GLANDULAR SWELLINGS,
ULCERATION, KING'S EVIL,
ERYSIPELAS, SALT RHEUM.

This taint, (HEREDITARY and ACQUIRED,) filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years' standing, have been cured.

NERVOUSNESS.

NERVOUS DEBILITY, SHATTERED NERVES,
ST. VITUS' DANCE, LOSS OF POWER,
CONFUSION OF THOUGHTS, EPILEPSY.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than it promises.

MERCURIAL DISEASES.

SALIVATION. ROTTING OF BONES.
BAD COMPLEXION. ACHES IN BONES.
FEELING OF WEARINESS. DEPRESSION OF SPIRITS.

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swelling of the Glands,

Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with Inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, as palpitation, Disease of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ, (persons suffering from any acute pain in the region of the heart) will be greatly relieved by Constitution Life Syrup.

Broken-down and Delicate Constitutions,

SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIMNESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

FOR ALL FORMS OF

ULCERATIVE DISEASES,

Either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD OR SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In diseases of the Liver, giving rise to Languor, Dizziness, Indigestion, Weak Stomach or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of CONSTITUTION LIFE SYRUP.

☞ As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.

THE RICH AND POOR

are liable to the same diseases. Nature and Science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD

produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

BROADWAY,
PUBLISH THIS DAY,
HISTORY
OF THE
RISE AND INFLUENCE
OF THE
SPIRIT OF RATIONALISM IN EUROPE.
BY
W. E. H. LECKY, M. A.
2 vols. small 8vo. $5.

From the Edinburgh Review.

"We opened these volumes, never having heard the name of their author, and entirely ignorant of his pretensions to a place in English literature. We closed them with the conviction that Mr. Lecky is one of the most accomplished writers and one of the most ingenious thinkers of the time, and that his book deserves the highest commendation we can bestow upon it. Indeed, it has seldom been our good fortune to take up an essay by an unknown, and, we presume, a young author, so remarkable for the purity and elegance of its style, so replete with varied erudition, appropriately introduced to enliven argument, or so distinguished for broad and dispassionate views. * * * This book well deserves to be universally read and carefully studied, for if the eye is dazzled at first by the brilliancy of the fervor, the mind is interested and occupied by the subtlety and perspicuity of a thousand observations which escape notice on a first perusal. In a word, we hope to see this work take its place among the best literary productions of the age, and we doubt not that it will powerfully conduce to the ultimate triumph of that cause to which it is devoted."

WHAT THE LADIES THINK OF

MEDICAL COMMON SENSE.

READ THE FOLLOWING EXTRACTS OF LETTERS FROM ALL PARTS OF THE COUNTRY.

State of New-York, County of New-York, to wit: EDWARD B. FOOTE, of the City of New-York, in the county aforesaid, being duly sworn, says: That the extracts of letters which he hereunto appends, commendatory of his work, entitled MEDICAL COMMON SENSE, are genuine quotations from letters received by mail from the various counties named over each extract, which letters are now on file at his office; and further, that the said testimonials were written without his (the deponent's) invitation or solicitation, and that they are but a sample of those daily received by him from all parts of the country, and from people of all classes, embracing physicians, clergymen, lawyers, artists, &c., as well as those in the humblest positions of life; and further says not.
EDWARD B. FOOTE.
Sworn to before me this twentieth day of October, 1865.
CHARLES WRIGHT KIRBY,
Notary Public, New-York City.

From a Lady in Cuyahoga County, Ohio.

As I read your book, it seems as though you had pulled up by the roots all the trees of medical knowledge which bore evil fruit, and cast them into the fire of electricity, and brought forth a "Tree of Life," the leaves of which shall be for the healing of the nations. I have got more sympathy—mentally, spiritually and physically—from your book than I ever got from anything or anybody before. Don't write such books if you do not want to be troubled with dying women. I have read up from Jackson on the "Hillside" to Michelet on the "Mountaintop," but failed to find anything or anybody who could bring me beyond a standing position; there my case is stubborn as adamant. Since reading Dr. Foote on "Electricity" I have been wondering what that "virtue" was that Christ felt going out of Him when the woman "touched the hem of His garment." What was it that "troubled the waters of the Pool of Siloam?" Maybe there was more rational, tangible science employed in working these miracles than some theologians have "ever dreamed of in their philosophy." I feel perfect confidence, without reading half your blessed book. I believe it is the identical book for which Michelet prayed when he said: "Oh, for a book worthy of woman!"

I came across your book while I was on a visit South, have read it through, and found it a most excellent work.

From a Lady in Lewis County, New-York.

I have been reading your book entitled "Medical Common Sense," and am perfectly delighted with its contents. It can be truly styled "Medical Common Sense," for so it is.

I came across your book while I was on a visit South, have read it through, and found it a most excellent work.

READ CONTENTS TABLE OF MEDICAL COMMON SENSE, ON INSIDE OF TO-DAY'S PAPER.

From a Lady in New-York County, New-York.

SIR: I have one of your books, called "Medical Common Sense." I think it properly named; it certainly contains a great deal of common sense. I think every mother should have it.

From a Lady in Cuyahoga County, Ohio.

After reading much of your work, I have come to the conclusion that it is not a fiction, but something that every family ought to have. I must say that I know more now than I ever did before in my life.

From a Lady in Alleghany County, Md.

Having read your most excellent work called "Medical Common Sense," I have been deeply interested in every word you have written, and from sad experience I know it is all too true.

MEDICAL COMMON SENSE treats on all diseases of a chronic character, on marriage customs of the world, on the causes of matrimonial and social wretchedness, presenting a thousand things of thrilling interest never published before, making altogether a sensible book for sensible people, and a good book for every one. The book contains 400 pages—100 illustrations. To be had at the newspaper depots and bookstores throughout the country. Price $1 50. Copies sent by mail everywhere, postage paid, on receipt of the price. Contents tables sent free. Address

THE ONLY FULL AND COMPLETE ACCOUNT OF GEN. SHERMAN AND HIS GREAT ARMY YET PUBLISHED.

SHERMAN'S MARCH
THROUGH THE SOUTH,
WITH
SKETCHES AND INCIDENTS OF HIS CAMPAIGNS,
By Capt. DAVID C. CONYNGHAM,
Of the New-York *Herald*.
One Vol., 12mo. Price $1 75.

Major-Gen. Hooker said of it: "It is the most complete and truthful work I have seen on that subject."

The Boston *Journal* says: "The author enjoyed favorable facilities for gathering a rich collection of facts and incidents, which he has put together in a very skillful manner. He tells the story in a way which will at once engage the attention of the reader and hold it to the close of the volume."

The *Christian Intelligencer* says: "The work is one of permanent value, and is likely to have a large sale."

The *American Volunteer* says: "Major Nichols' popular work, which takes up the narrative at Atlanta, and is, therefore, incomplete, has had an immense sale. But the volume before us, written by Capt. David C. Conyngham, takes up the narrative at the time when Sherman marshaled its noble army for its first forward movement in the grandest campaign ever entered upon in modern warfare."

The New-York *Herald* says: "From a careful perusal of the work we are disposed to credit it as the best contribution to the history of the late war yet written. The *personnel* of the Generals is admirably painted. The battles of Chickamauga, Rocky Face Ridge, Resacca, Snake Creek Gap, Dallas, Kenesaw, Jonesboro', Atlanta, and the storming of Fort McAlister, are brilliantly described in succession. We have had in other books some light and sketchy descriptions of the march of Sherman's army from Atlanta to the sea, but in the volume before us it is not alone the march, which is brilliantly as well as faithfully pictured, that we find, but all the gigantic battles that preceded it—battles which made the march possible and rendered its completion triumphant."

21,871 acres of petroleum and mineral lands, in Johnson, Magoffin, McLean, Davies, Ohio, and Barren Counties, Ky., and Pope County, Ill., selected with the greatest care by gentlemen of experience in the production of oil. Lands fully reported upon by Prof. Hagar, of Vermont, (State Geologist,) and Dr. George W. Shumard, formerly United States Geologist to the United States exploring expedition to the sources of the Red River, and State Geologist of Texas.

The lands in Magoffin County are near the great Burning Spring of Kentucky, several oil springs exist on the premises; in Barren County are near developed property producing respectively in two wells 300 to 500 barrels daily; in Pope County, Ill., is a portion of a region formerly reserved by the United States Government on account of valuable mineral lands; [illegible] creek crosses the Ohio River at that point.

TEN WELLS are now under contract, part going down upon this property, and energetic measures are in progress for the rapid development of the valuable resources of this company. Report (official) from Wells Nos. 1 and 2, Oct. 8, says: "Oil is visible in Well No. 1; it could be seen yesterday plain in the borings;" and Oct. 10 says: "No. 2 is 31 feet, and has some oil. [illegible] or ten gentlemen were here to-day, and said they never saw better prospects for oil. The smell of petroleum is as strong on the borings as at the flowing wells."

The recent large strikes in Kentucky must convince the most skeptical that this State will rival Pennsylvania in the production of oil. Within the last sixty days two wells, respectively of 1,500 and 2,000 barrels development, have been struck upon lands lying upon the Cumberland. A dispatch from Louisville, Nov. 2, to Mr. J. L. Smyser, says: "If you have not sold your interest in Sacramento Company, withdraw it. Another 2,000 barrel strike near the big well."

Prospectus showing in detail descriptions of the property of this company, embracing full reports from Prof. Hagar and Dr. Shumard, copy of the act of incorporation and by-laws of the company, and further information and specimens of coal and lead taken from the lands of this company can be seen at the office of Mr. THOMAS F. MORRIS, Transfer Officer, No. 7 Wall-st., N. Y.
